HHH, Nixon Both Plan Ohio Campaign Appearances

By THE ASSOCIATED PRESS
The two major presidential candidates make back-to-back campaign stops in Ohio Thursday and Friday.

Republican Richard M. Nixon plans a six-hour visit to Akron Thursday that includes a rally at the University of Akron.

Vice President Hubert H. Humphrey will be in Cincinnati Friday. His schedule includes an appearance on a local television show, a speech before the National Newspaper Association convention and a public rally downtown.

With reports in from all 88 county election boards, Secretary of State Ted W. Brown forecast Tuesday a record turnout of 4.25 million Ohio voters for the Nov. 5 election. The current record is 4.2 million in 1960, when Nixon won Ohio but lost the national race to John F. Kennedy.

Brown said he based his prediction on high registration figures, "intense interest" created by the contest between Nixon and Humphrey, and the third party bid of George C. Wallace, who has made several Ohio campaign stops.

In the U.S. Senate race, both candidates sought campaign funds Tuesday.

WEEKLY, and sometimes daily, The Herald receives requests to withhold publication of articles ranging from traffic violations and hospital news to court proceedings and stories involving local government.

National Newspaper Week is now underway and as part of the observance page 2 of today's Herald has a few "censored" columns in an effort to point out in a small way what would happen if freedom of the press were not provided by the Constitution of the United States.

There would be little ink used in this publication if the government or public were permitted to exercise a censorship.

Freedom of the press is your freedom and today's editorial (page 4) and cartoon are centered on this theme.

"Censored" items do, however, appear on the back page.

Just something to think about during National Newspaper Week.

1968 PUMPKIN Show programs are due off the press today or Thursday at which time they will be available at most business offices and merchants in the city.

Pumpkin Show Inc. headquarters are now located on the second floor of the K of P building, 114 1/2 N. Court St. The phone is 474-7000.

ELECTION Board offices in the courthouse will remain open 9-12 a.m. Saturday for absentee voters, according to a board clerk.

Voting has been higher this year than most previous presidential election years, according to the clerks, who report that they have received more than 200 absentee votes since Monday.

Apollo Countdown

Moves Flawlessly

Toward Launch

CAPE KENNEDY, Fla. (AP) — A mammoth Saturn 5 rocket that may hurl men around the moon in December rolls to a launch pad today as preparations move flawlessly toward Friday's launching of the three Apollo 7 astronauts on an earth orbit voyage.

With the Apollo 8 spaceship perched on top, the 363-foot rocket makes the eight-hour, 3.5-mile trip to launch pad in a tractor-like transporter called a crawler.

The Apollo 8 crew—Air Force Col. Frank Borman, Navy Capt. James A. Lovell Jr. and Air Force Maj. William A. Anders—were among those planning to witness the roll-out.

The astronauts' hopes of flying Apollo 8 into orbit around the moon depend on the results of Apollo 7, which is scheduled to ride a smaller Saturn 1B rocket into earth orbit at 11 a.m. EDT Friday.

Navy Capt. Walter M. Schirra Jr., Air Force Maj. Donn F. Eisele and civilian astronaut Walter Cunningham are to check out all spacecraft systems as they race around the globe for 11 days in the Apollo 7 ship.

If they demonstrate conclusively that the Apollo craft can safely carry men a quarter-of-

a-million miles to the moon and bring them back, the Borman crew plans to take off Dec. 20 on an eight-day trip in which they are to orbit the moon 10 times during a 24-hour period. That flight would be a critical rehearsal for a manned lunar landing in 1969.

If the Apollo 7 uncovers flaws in the hardware, Apollo 8 will be scheduled as an earth orbit mission to work out the bugs.

Everything was reported going well with Apollo preparations as Schirra, Eisele and Cunningham eased up on their training for America's first three-man space mission. They planned more practice in a spacecraft simulator today and a review of their flight plan.

Negro Calls

HHH, Nixon

Vile Names

NEW YORK (AP) —The director of New York University's Afro-American Student Center told 700 students Tuesday that Richard M. Nixon and Hubert H. Humphrey are both "racist bastards."

The director is John F. Hatchett, a Negro whose appointment to the NYU post brought protests from Jewish spokesmen who accused him of having written an anti-Semitic magazine article.

In his talk to the students, Hatchett applied the epithet also to the president of the New York teachers' union, Albert Shanker.

"You check those cats out on television and listen to the stuff they're spouting, and you'll see," he said.

Of third party candidate George C. Wallace, Hatchett commented "at least he is honest about what he stands for."

An NYU-spokesman said the university would have no immediate comment. President James M. Hester was out of town.

Hatchett has appealed his dismissal as a public school teacher in Harlem. His license was revoked after he took a group of pupils to a Malcolm X memorial program.

Cleveland Gets

New Police Chief

CLEVELAND, Ohio (AP) — Mayor Carl B. Stokes announced today that Cleveland police chief Michael J. Blackwell was being replaced by Patrick L. Gerity, a 49-year-old deputy inspector.

Blackwell, 67, was named police chief by Stokes the day after he became mayor in 1967. But Blackwell reportedly opposed plans to reorganize the department.

The idea was to block the favorite Republican delaying tactics—to partly empty the chamber and then force one time-consuming roll call after another to establish a quorum.

Before the motion to consider the bill could be called up there were 36 roll calls—by a wide margin a record for one continuous session. Thereafter Republicans continued to find ways to force roll calls, each consuming about half an hour.

The bill agreed on by the conferees has these principal provisions:

—Interstate sales of all firearms and ammunition by mail would be prohibited, except among federally licensed manufacturers, importers, dealers and collectors.

—Over-the-counter sales of firearms to nonresidents of a

state would be banned, except that a person could purchase a rifle or shotgun, but not a handgun, in an adjoining state if this is legal under the laws of both states.

—In such out-of-state purchases, the buyer would have to file an affidavit of eligibility and, to allow time for a police check, the seller could not make delivery for seven days.

—On mail order sales within a state, this affidavit and waiting-period procedure also would apply.

—Sales on handguns and handgun ammunition would be prohibited to persons under 21 years of age, and sales of rifles and shotguns and ammunition for them would be banned to persons under 18.

—Imports of all surplus military firearms would be prohibited effective immediately. The rest of the bill would take effect Dec. 16.

—For carrying a firearm while committing a federal felony, a person would be subject to an additional penalty of one to 10 years for a first offense and 5 to 25 years for a second offense. These penalties, however, could run concurrently with

the sentence for the crime itself.

—Sales of firearms to mental incompetents, drug addicts, felons, fugitives and persons under indictment would be prohibited.

—Destructive devices such as bombs, grenades, antitank guns and bazookas would be brought under the 1934 National Firearms Act, which requires federal registration of sawed-off shotguns, machineguns and other gangster-type weapons.

Violations of the new law would be subject to penalties of up to five years' imprisonment or a \$5,000 fine, or both.

The Senate-House conferees modified a House provision to

exempt the National Board for Promotion of Rifle Practice from the terms of the legislation.

Rep. Emanuel Celler, D-N.Y., chairman of the House conferees, had contended that this would have the effect of exempting the closely affiliated National Rifle Association and its nearly one million members.

Under the compromise, the secretary of defense would be authorized to exempt organizations engaged in the civilian marksmanship program. But the individuals involved would have to be qualified by law to purchase firearms.

WASHINGTON (AP) — Gen. John L. Hines, 100-year-old former Army chief of staff, is reported in serious condition in Walter Reed Army Hospital after developing pneumonia.

Hines was Army chief of staff from 1924 to 1926 after fighting in the Spanish-American War and World War I. He tried to return to active duty at age 73 during World War II.

Hospital officials said pneumonia developed following a respiratory infection.

Gun Control Compromise Bill Runs Into New Opposition

WASHINGTON (AP) — The bill outlawing mail order sales of guns and ammunition, battered for months in House and Senate, faces new danger as it nears what should have been the end of its long trek through Congress.

The measure was approved by a House-Senate conference committee late Tuesday, but the possibility of new trouble was raised when some Senate conferees did not sign the committee report.

There also were doubts that the House would accept the ban on mail order sales of all am-

munition, since it had exempted this category when its version of the bill was passed.

The conference bill must be approved again in each chamber before going on to the White House.

The bill agreed on by the conferees has these principal provisions:

Israelis Offer 9-Point Plan For Peace In Middle East

Report Viet Coup Attempt Dismal Flop

SAIGON (AP) — A coup aimed against President Nguyen Van Thieu's government was thwarted Tuesday night, a highly reliable government source said today.

The report of the attempted uprising followed by hours a government announcement that South Vietnam's armed forces were on full alert. The official spokesmen claimed no knowledge of a coup attempt.

But the source, who is in a position to know, told The Associated Press: "You can expect a lot of people to be arrested in the next few days, all as a result of the coup attempt that failed."

Other informed sources said several high ranking Vietnamese marine officers—majors and colonels—had already been arrested. A source close to marine commandant, Lt. Gen. Le Nguyen Khang, said he knew of no such arrests.

Intelligence sources said there had been "some troop movements in the Mekong Delta" Tuesday and that "proper counter-movements" had been taken with other troops.

There apparently was no actual confrontation of troops and no shooting, these informants said.

A source in Thieu's office said Thieu was in the palace tonight. This source said he knew nothing about a coup attempt.

The government source who told of the coup said details still were fuzzy and that it was not yet known who was behind it or how widespread it was. From all indications, it did not get far.

The report several marine officers were arrested could indicate that Gen. Khang, a political ally of Vice President Nguyen Cao Ky, might have been involved. This could not be confirmed.

OP Inmates File Suit

COLUMBUS, Ohio (AP) — A suit originating from recent charges about conditions at Ohio Penitentiary was filed in U.S. District Court Tuesday against state correction officials.

William J. Davis, an attorney, filed the action on behalf of Ellie Davis Jr. and Robert L. Ruffin, prison inmates, asking a temporary injunction to keep the defendants from holding the inmates under conditions allegedly harmful to physical and mental health.

The action charged prison officials have maintained a system of segregation in the penitentiary and other prisons and that inmates are held under conditions violating "the elemental concepts of decency."

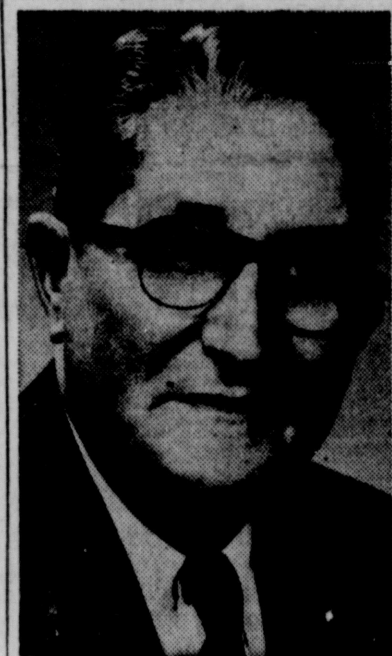

Defendants include Martin Janis, director of the Department of Mental Hygiene and Correction; Maury Koblentz, chief of the Division of Correction; Warden H. J. Cardwell; Adj. Gen. Sylvester Del Corso; Highway Patrol Supt. Robert M. Chiaramonte; Atty. Gen. William B. Saxbe and Gov. James A. Rhodes.

Friends may call at the Mader Funeral Home beginning 7 p.m. Thursday.

Elks Lodge will hold memorial services 8 p.m. Thursday and Masonic services will be 8 p.m. Friday.

Heavy Rain, Sharp Chill In Weather

By THE ASSOCIATED PRESS

Heavy rains soaked the nation's midsection today while a sharp freeze stung the northern and central Rockies.

Gusty thunderstorms rumbled through the night from the Texas Panhandle to Minnesota. Nearly 2 inches of rain drenched Topeka, Kan. Hail pelted parts of Texas, Kansas and Missouri during the storms.

Winds up to 64 miles an hour lashed Wichita, Kan., and gusts near 50 miles an hour swept Gage, Okla., and Manhattan, Kan.

Tornadoes swiped at scattered portions of Texas through Tuesday evening. Damage generally was light and there were no reports of injuries.

Behind the storm front, temperatures plummeted into the lower 20s across Montana just after midnight. Readings in the lower 30s extended southward over Colorado. Butte, Mont., registered 22 well before daybreak.

An isolated frontal system spilled rain over the Gulf Coast and eastward through Georgia. Cool temperatures and considerable cloudiness prevailed across the Pacific Northwest and in a large portion of the Northeast as well.

Wallace Gibes At Hecklers

SCRANTON, Pa. (AP) — George C. Wallace has a knack of turning to his own use the heckling that has become a fixture of the 1968 presidential campaign.

"Well, my goodness," said Wallace after a particularly noisy rally on the Boston Common Tuesday, "I ought to know how to handle those folks, I've put up with them for 3 1/2 years."

Between paragraphs in his speech, Wallace, aided by powerful sound equipment, exchanged taunts with a chanting group of dissenters interspersed among the largest crowd he has drawn so far in his campaign.

"Why don't you hire the hall tomorrow and see how many folks you can get here?" gibed Wallace early in his speech, obviously pleased with the vast sea of faces spread before him.

Police estimates of the crowd ranged as high as 20,000, but in the imprecise art of guessing crowd sizes, other opinions went from 40,000 to Wallace's own judgment of 75,000.

The hecklers were in no way violent, but did distract Wallace with their cries of "Go home!" and "Peace now!"

The majority of the crowd did not react vocally to Wallace's pledges to end the busing of school children, repeal the open housing law, restore law and order to the streets and conclude the Vietnam war militarily.

Of those who responded emotionally, about half seemed to be for Wallace and half against.

Murder Trial Set In Caldwell

CALDWELL, Ohio (AP) — The first witnesses were expected to be called to testify today in the first-degree murder trial of Samuel C. Edgell, 21, of Massillon.

Twelve jurors were seated tentatively Tuesday in Noble County Common Pleas Court. Edgell is charged in the slaying last March 27 of Matthew Zilka, 60, a construction worker from Buffalo, Guernsey County.

The state contends Edgell stabbed Zilka to death after hitching a ride. He pleaded innocent by reason of insanity but was judged sane after examination at Lima State Hospital.

Seek Firm Boundaries, Peace Treaty

UNITED NATIONS, N.Y. (AP) — Israel, in what it calls a nine-point blueprint for peace, has expressed willingness to negotiate immediately on permanent boundaries with the Arab states, but indicates it will not withdraw forces from occupied territories until a permanent peace is secured.

In a major foreign policy address before the U.N. General Assembly Tuesday, Foreign Minister Abba Eban renewed Israel's demand for a "just and lasting peace, duly negotiated and contractually expressed."

Cairo radio said the Israeli program was no more than a repetition of previously stated Israeli views on a Mideast settlement. Syria's Damascus radio said the plan "reaffirms Zionist expansionist intentions."

The central point in Eban's speech, Israeli sources said, was a call "to replace cease-fire lines by permanent, secure and recognized boundaries" and "to carry out the disposition of forces in full accord with the boundaries agreed under the final peace."

Arab nations, backed by the Soviet Union, have insisted Israel relinquish Arab territory won during the June 1967 Middle East war as a first condition for peace talks.

Eban made clear Israel's intention to keep the Old City of Jerusalem, but expressed readiness to discuss the status of Christian and Moslem holy places with those "traditionally concerned." This, too, was expected to draw strenuous Arab dissent.

But in a new gesture, the Israeli foreign minister proposed an international conference of Middle East countries to develop a five-year plan for solving of the Palestine refugee problem. He said the conference could be called in advance of peace talks.

Eban also made these points in his peace blueprint: — Israel and the Arabs should sign a pledge of mutual nonaggression.

— Israeli and Jordanian citizens should be allowed freedom of movement across the two countries' borders. Israel would be willing to afford Jordan free port facilities on the Mediterranean coast.

— Israel should have unreserved rights to use the Suez Canal and the Gulf of Aqaba.

Traffic Ticket Proves Costly

CINCINNATI (AP) — A woman's refusal to accept a \$5 traffic ticket proved costly Tuesday.

Instead of the \$5 fine it turned out that Mrs. Farrie McLish 29, was fined \$100 by Traffic Court Judge George S. Heitzler and sentenced to 90 days in the workhouse on charges of assaulting a police officer and disorderly conduct.

Patrolman James Dietz said he made out the traffic ticket against Mrs. McLish for making unnecessary noise by continuous blowing of her automobile horn. Patrolman Jerry A. McMillan and Dietz said the woman refused to accept the ticket, then struggled with McMillan and hit Dietz.

Equal Time Bill Thrashed Out In House

WASHINGTON (AP) — The House fought and muddled its way through almost 20 hours of delaying tactics before taking up today a bill to facilitate a Hubert H. Humphrey-Richard M. Nixon-George C. Wallace television debate.

Records and precedents fell like tennpins during the continuous day-and-night struggle between Democrats bent on passing the bill and Republicans staging the House equivalent of a filibuster.

For the last 2 1/2 hours of preliminaries, members were physically locked in the House chamber by majority vote—the first such instance, veteran members said, in more than 50 years.

The idea was to block the favorite Republican delaying tactics—to partly empty the chamber and then force one time-consuming roll call after another to establish a quorum.

Before the motion to consider the bill could be called up there were 36 roll calls—by a wide margin a record for one continuous session. Thereafter Republicans continued to find ways to force roll calls, each consuming about half an hour.

Intelligence sources said there had been "some troop movements in the Mekong Delta" Tuesday and that "proper counter-movements" had been taken with other troops.

There apparently was no actual confrontation of troops and no shooting, these informants said.

A source in Thieu's office said Thieu was in the palace tonight. This source said he knew nothing about a coup attempt.

The government source who told of the coup said details still were fuzzy and that it was not yet known who was behind it or how widespread it was. From all indications, it did not get far.

The report several marine officers were arrested could indicate that Gen. Khang, a political ally of Vice President Nguyen Cao Ky, might have been involved. This could not be confirmed.

OP Inmates File Suit

COLUMBUS, Ohio (AP) — A suit originating from recent charges about conditions at Ohio Penitentiary was filed in U.S. District Court Tuesday against state correction officials.

William J. Davis, an attorney, filed the action on behalf of Ellie Davis Jr. and Robert L. Ruffin, prison inmates, asking a temporary injunction to keep the defendants from holding the inmates under conditions allegedly harmful to physical and mental health.

The action charged prison officials have maintained a system of segregation in the penitentiary and other prisons and that inmates are held under conditions violating "the elemental concepts of decency."

Defendants include Martin Janis, director of the Department of Mental Hygiene and Correction; Maury Koblenz, chief of the Division of Correction; Warden H. J. Cardwell; Adj. Gen. Sylvester Del Corso; Highway Patrol Supt. Robert M. Chiaramonte; Atty. Gen. William B. Saxbe and Gov. James A. Rhodes.

Mr. Yates was a veteran of World War I, having served with the famous Rainbow Division.

HE WAS preceded in death by his wife, Eleanor Lutz Yates, whom he married March 30, 1924.

Born July 16, 1895, in Circleville, he was the son of Benjamin and Luella M. White Yates.

Heavy Rain, Sharp Chill In Weather

By THE ASSOCIATED PRESS
Heavy rains soaked the nation's midsection today while a sharp freeze stung the northern and central Rockies.

Gusty thunderstorms rumbled through the night from the Texas Panhandle to Minnesota. Nearly 2 inches of rain drenched Topeka, Kan. Hail pelted parts of Texas, Kansas and Missouri during the storms.

Winds up to 64 miles an hour lashed Wichita, Kan., and gusts near 50 miles an hour swept Gage, Okla., and Manhattan, Kan.

Tornadoes swiped at scattered portions of Texas through Tuesday evening. Damage generally was light and there were no reports of injuries.

Behind the storm front, temperatures plummeted into the lower 20s across Montana just after midnight. Readings in the lower 30s extended southward over Colorado. Butte, Mont., registered 22 well before daybreak.

An isolated frontal system spilled rain over the Gulf Coast and eastward through Georgia. Cool temperatures and considerable cloudiness prevailed across the Pacific Northwest and in a large portion of the Northeast as well.

Wallace Gibes At Hecklers

SCRANTON, Pa. (AP) — George C. Wallace has a knack of turning to his own use the heckling that has become a fixture of the 1968 presidential campaign.

"Well, my goodness," said Wallace after a particularly noisy rally on the Boston Common Tuesday, "I ought to know how to handle those folks, I've put up with them for 5 1/2 years."

Between paragraphs in his speech, Wallace, aided by powerful sound equipment, exchanged taunts with a chanting group of dissenters interspersed among the largest crowd he has drawn so far in his campaign.

"Why don't you hire the hall tomorrow and see how many folks you can get here?" glibed Wallace early in his speech, obviously pleased with the vast sea of faces spread before him.

Police estimates of the crowd ranged as high as 20,000, but in the imprecise art of guessing crowd sizes, other opinions went from 40,000 to Wallace's own judgment of 75,000.

The hecklers were in no way violent, but did distract Wallace with their cries of "Go home!" and "Peace now!"

The majority of the crowd did not react vocally to Wallace's pledges to end the busing of school children, repeal the open housing law, restore law and order to the streets and conclude the Vietnam war militarily.

Of those who responded emotionally, about half seemed to be for Wallace and half against.

Murder Trial Set In Caldwell

CALDWELL, Ohio (AP)—The first witnesses were expected to be called to testify today in the first-degree murder trial of Samuel C. Edgell, 21, of Massillon.

Twelve jurors were seated tentatively Tuesday in Noble County Common Pleas Court. Edgell is charged in the slaying last March 27 of Matthew Zilka, 60, a construction worker from Buffalo, Guernsey County.

The state contends Edgell stabbed Zilka to death after hitching a ride. He pleaded innocent by reason of insanity but was judged sane after examination at Lima State Hospital.

Seek Firm Boundaries, Peace Treaty

UNITED NATIONS, N.Y. (AP) — Israel, in what it calls a nine-point blueprint for peace, has expressed willingness to negotiate immediately on permanent boundaries with the Arab states, but indicates it will not withdraw forces from occupied territories until a permanent peace is secured.

In a major foreign policy address before the U.N. General Assembly Tuesday, Foreign Minister Abba Eban renewed Israel's demand for a "just and lasting peace, duly negotiated and contractually expressed."

Cairo radio said the Israeli program was no more than a repetition of previously stated Israeli views on a Mideast settlement. Syria's Damascus radio said the plan "reaffirms Zionist expansionist intentions."

The central point in Eban's speech, Israeli sources said, was a call "to replace cease-fire lines by permanent, secure and recognized boundaries" and "to carry out the disposition of forces in full accord with the boundaries agreed under the final peace."

Arab nations, backed by the Soviet Union, have insisted Israel relinquish Arab territory won during the June 1967 Middle East war as a first condition for peace talks.

Eban made clear Israel's intention to keep the Old City of Jerusalem, but expressed readiness to discuss the status of Christian and Moslem holy places with those "traditionally concerned." This, too, was expected to draw strenuous Arab dissent.

But in a new gesture, the Israeli foreign minister proposed an international conference of Middle East countries to develop a five-year plan for solving of the Palestine refugee problem. He said the conference could be called in advance of peace talks.

Eban also made these points in his peace blueprint:

— Israel and the Arabs should sign a pledge of mutual nonaggression.

— Israeli and Jordanian citizens should be allowed freedom of movement across the two countries' borders. Israel would be willing to afford Jordan free port facilities on the Mediterranean coast.

— Israel should have unreserved rights to use the Suez Canal and the Gulf of Aqaba.

Traffic Ticket Proves Costly

CINCINNATI (AP) — A woman's refusal to accept a \$5 traffic ticket proved costly Tuesday.

Instead of the \$5 fine it turned out that Mrs. Farrie McLish 29, was fined \$100 by Traffic Court Judge George S. Heitzler and sentenced to 90 days in the workhouse on charges of assaulting a police officer and disorderly conduct.

Patrolman James Dietz said he made out the traffic ticket against Mrs. McLish for making unnecessary noise by continuous blowing of her automobile horn. Patrolman Jerry A. McMillan and Dietz said the woman refused to accept the ticket, then struggled with McMillan and hit Dietz.

Senior General Seriously Ill

WASHINGTON (AP) — Gen. John L. Hines, 100-year-old former Army chief of staff, is reported in serious condition in Walter Reed Army Hospital after developing pneumonia.

Hines was Army chief of staff from 1924 to 1926 after fighting in the Spanish-American War and World War I. He tried to return to active duty at age 73 during World War II.

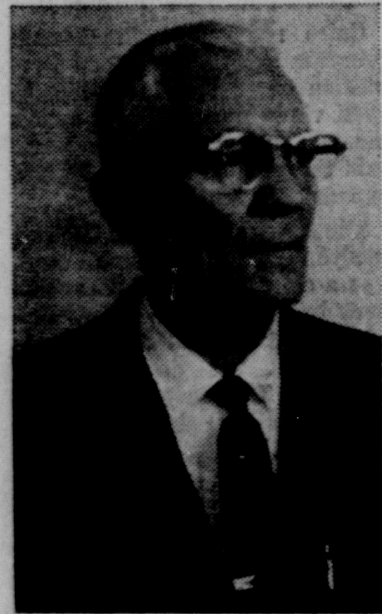

Hospital officials said pneumonia developed following a respiratory infection.

32 Orient Staff Members Study Shelter Control

Thirty-two employees of Orient Institute completed a shelter management course during September designed to prepare them to manage a shelter in case of national disaster.

Fourteen hours were spent in the classroom with John D. Harbaugh, the Institute's pharmacist, instructing assisted by Kenneth Stanley, food service manager.

Lectures were presented followed by questions and answer periods. Movies depicting shelter life were utilized to enhance the lessons. Following this course of study actual shelter living in a specially constructed fallout shelter at Orient was experienced, giving all students a chance to use the training and see the working problems of managing a shelter and dealing with personalities.

Shelter management training is of utmost importance to the community in case of nuclear attack, tornadoes, or any major disaster. The Civil Defense Committee recommends that people throughout the community avail themselves of this training.

Employees having completed shelter management include Elma Dean, Armentrout, Shirley Beavers, Mary Cline, Dorothy Coleman, Mary Cherry, Dorothy Derexson, Carol Dings, Katherine Emerick, Vicky Frazier, Bernice Fisher, Doris Gantz, (Shelter Manager), Mildred Hatfield, Helen Hill, Joe Hudson, Monte Lewis, Janice Miller, Betty Morris, Lila Mowery, Mildred Neff, Fred Nye, Dora Phillips, Norma Ramey, Lucille Reed, Valeska Rinehart, Gertrude Schleich, Betty Sheets, Helen Smith, Rachael Titler, Richard Van Dine, Dale Winfough and Ella M. Physician Suspended By Board

COLUMBUS, Ohio (AP)—The Ohio State Medical Board Tuesday found Dr. Roger Dale Saylor guilty of two counts of gross immorality.

The 43-year-old Bloomville, Seneca County, physician—only physician in that North Central Ohio community—was suspended from practice indefinitely, effective Nov. 1.

He had been charged with four counts of immorality involving relationships with female patients and a charge stemming from a 1967 conviction in Tiffin Municipal Court for keeping improper medical records.

The medical board examined his case in a long series of hearings, beginning last February.

The charges against him came after nearly a year's investigation by Seneca County officials.

The board found the doctor innocent of two of the charges, but was unanimous in its decision to suspend his license to practice surgery and medicine. The two charges producing acquittals also involved gross immorality. One female patient was named in each.

Nixon Seeks Backing Of Youth

LOS ANGELES (AP) — Richard M. Nixon held out a Republican welcome to the young Tuesday, saying the Democratic party has rejected youth.

Before flying to California Tuesday night, Nixon addressed a packed house in the 8,500-seat Minneapolis Auditorium in the adopted home state of his Democratic rival for the presidency, Hubert H. Humphrey.

The campaign crowd was overwhelmingly friendly but included a small and vocal group of "we want peace" chanters. They interrupted Nixon several times but quickly were drowned out by cries of "We Want Nixon."

One young man, who left the hall under his own steam at the request of police, stopped the GOP candidate at the outset by announcing from the balcony, over a battery-powered megaphone, that "I have a few questions I want to put to you."

Many of the Nixon partisans were young people, too, and the

campaigner had a special word for them.

He said Minnesota's Sen. Eugene J. McCarthy deserved much of the credit for their interest in politics and, referring to McCarthy's defeat for the

"President Johnson and the rulers of the Kremlin both flouted international law, world opinion and even common decency," he said.

"In our invasion of Vietnam and in the invasion of Czechoslovakia the two most powerful nations of the world placed reliance on massive military power," Young said.

Indict Couple In Car Bombing

CLEVELAND, Ohio (AP) — The Cuyahoga County grand jury has indicted a union steward and his wife in connection with a car bombing on Cleveland's West Side last month.

Alphonse Spagnola, 53, and his 21-year-old wife Virginia, of Euclid, were charged with malicious placement of explosives in an indictment returned Tuesday.

The bombing took place Sept. 27 in a parking lot at 4041 Rocky River Drive. The car belonged to James E. Jackson, 45, supervisor of the installation of conveyors at the Ford Motor Co. foundry in Brook Park. Spagnola is a steward for Ironworkers Local 17 at the foundry.

Nixon Seeks Backing Of Youth

LOS ANGELES (AP) — Richard M. Nixon held out a Republican welcome to the young Tuesday, saying the Democratic party has rejected youth.

Before flying to California Tuesday night, Nixon addressed a packed house in the 8,500-seat Minneapolis Auditorium in the adopted home state of his Democratic rival for the presidency, Hubert H. Humphrey.

The campaign crowd was overwhelmingly friendly but included a small and vocal group of "we want peace" chanters. They interrupted Nixon several times but quickly were drowned out by cries of "We Want Nixon."

One young man, who left the hall under his own steam at the request of police, stopped the GOP candidate at the outset by announcing from the balcony, over a battery-powered megaphone, that "I have a few questions I want to put to you."

Many of the Nixon partisans were young people, too, and the

campaigner had a special word for them.

He said Minnesota's Sen. Eugene J. McCarthy deserved much of the credit for their interest in politics and, referring to McCarthy's defeat for the

The GOP candidate plans to gradually increase his voting-seeking efforts in the most populous states until—in the week or so before the Nov. 5 balloting—they claim his exclusive attention.

For Nixon, these target states Democratic presidential nomination, added: "Now that you've been rejected by the other party, we'll welcome you in ours."

With three rallies scheduled today in California, Nixon begins intensive concentration on the big-vote states—declaring he's not taking victory for granted.

In a speech prepared for a campaign meeting at Santa Monica, Nixon proposed a "children's antiobscenity act" that would make it a federal criminal offense to knowingly mail obscene matter to those under 16.

"The time has come for new legislation to crack down on the purveyors of filth who peddle the matter to our young," Nixon said.

Young Compares Russia To U.S.

WASHINGTON (AP) — Sen. Stephen M. Young, D-Ohio, told the Senate Tuesday "there are certain remarkable parallels" between the Soviet invasion of Czechoslovakia and U.S. military action in Vietnam.

"President Johnson and the rulers of the Kremlin both flouted international law, world opinion and even common decency," he said.

"In our invasion of Vietnam and in the invasion of Czechoslovakia the two most powerful nations of the world placed reliance on massive military power," Young said.

Tydings Claims Gilligan 'Electable'

COLUMBUS, Ohio (AP) — Democratic U.S. Senate candidate John J. Gilligan was called "electable" Tuesday night by Sen. Joseph Tydings, D-Md.

Tydings was featured speaker at a \$100-a-plate fund-raising dinner attended by about 250 persons.

Gilligan's campaign schedule today included what he called a major address on education at a Cleveland Jaycees meeting.

Greatest Of Freedoms

October 6 to 12 has been designated as Newspaper Week.

Purpose of the observance is not to promote the interests of the press, but to impress upon the public the need for what has come to be known as a free press, admittedly a principal bulwark for a free people.

The newspaper has been an essential instrument in the lives of the American people since the beginning of the Republic.

Its basic purpose has been and always will be: To chronicle the happenings of the day, accurately and completely. Its next and inseparable function is to try to place the facts concerning these happenings in perspective — to give them meaning in the light of other events, past and present.

The newspaper has other important purposes — to serve as a medium for advertising, to entertain and amuse, to serve as a public forum.

Today half the world is under news censorship. Control of the press is the first and most important step in the subjugation of a people by a dictator. Denied access to the facts under censorship and press control, the people can base their judgment only on half-truths and outright lies, fed to them as a necessary preliminary to enslavement.

That this is frightfully true has been proven by developments in countries now under dictatorship. Governments have been overthrown and the rights of the people abrogated in many instances because they were denied the facts which would have been made available by a free press.

Where newspapers are free from government restrictions, as they are in the United States, people are free to select the reading matter of their choice. This is one of the greatest of all freedoms.

According To Boyle

By HAL BOYLE

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

When a divorced person remarries, he usually chooses another divorced person as his second mate. Only in four cases out of 10 does the divorced one wed a partner who has never been married.

Sixteen million Americans now work at industrial jobs where noise threatens to affect their hearing, which can be impaired by steady exposure to sounds about 90 decibels. A subway generates 95 decibels, a kitchen blender 83, a jet plane at take off 150. Laboratory mice have been killed by sounds of 175 decibels.

It took the skins of 10,000 calves to produce 30 vellum copies of the famous Bible printed by Johann Gutenberg, the 500th anniversary of whose death is commemorated this year. Al-

though he is now credited with being the originator of movable metal type in the Western world, movable type had been developed earlier in Korea.

Mental retardation caused by widespread malnutrition may explain why some nations of the world remain backward. It is estimated that from 80 to 90 per cent of the population in countries where the diet is chronically deficient may suffer brain damage.

It pays to be tall—but not too tall. A survey of 100 university graduates found that those 6 feet 2 received starting salaries 12.4 per cent higher than those under six feet. The pay scale also was lower for those more than 6 feet 2.

Quotable notables: "There is nothing more disappointing than to anticipate a reward for kindness."—David Seabury.

Pioneers sometimes make poor prophets. Octave Chanute,

prominent flight expert and friend of the Wright brothers, said of the future of airplanes: "The machines will eventually be fast, they will be used in sport, but they are not to be thought of as commercial carriers." But last year U.S. commercial aircraft flew 132 million passengers.

Worth remembering: "Some people just go through life standing at the complaint counter."

Nature lore: Some lightning bolts are five miles long, but the average length is only half a mile. The Dead Sea is 25 per cent salt. Snow isn't frozen rain—sleet is. At birth an opossum is the size of a navy bean. Flying fish can glide 500 feet, and have been known to soar over the decks of small ships.

It was Arthur Schopenhauer who observed, "What most people call fate is mostly their own stupidities."

The Business World

By JACK LEFFLER (For John Cuniff)

NEW YORK (AP) — A U.S. company with the double-barreled aim of making profits and helping the economic and social progress of underdeveloped countries has been operating 21 years but few Americans know about it.

The firm is International Basic Economy Corp., a part of the Rockefeller empire.

It was founded in Brazil and Venezuela in 1947 by Nelson A. Rockefeller, now governor of New York, and his brothers. It now operates 130 subsidiaries and affiliates in 33 countries.

Rockefeller's interest in South America stemmed from a visit in 1937 to the Venezuela oil properties of Creole Petroleum Corp., of which he was a director. It was heightened by his World War II work as U.S. coordinator of commercial and cultural relations between the American republics.

IBEC's first undertakings in Venezuela were a farming company, a fishing company, a food wholesaling company and a milk company.

Then and now, IBEC executives, the purpose was:

"To do a worldwide, profitable business in fields important to economic development and

concerned with basic human needs."

IBEC's start wasn't without its troubles. American executives ran into resistance to change in the ways of doing business and political and monetary instability. Some of its ventures were ill-conceived for certain areas and failed to show a profit. They have been liquidated.

Operations have been refined into five groups: Food—Operates 52 supermarkets in South America, raises hybrid seed corn, catches and cans tuna, processes and distributes milk and other food products.

Poultry—Supplies breeding stock to chicken farmers in 23 countries.

Housing — Has constructed about 13,000 one-family, low-and medium-cost houses in Puerto Rico. Programs are under way in Mexico, Peru, the Virgin Islands and the United States.

Industrial—Manufactures a wide range of metal products in the United States and overseas.

Financial services and investment—Manages mutual funds in six countries, plus worldwide insurance brokerage operations and varied investments.

IBEC's revenues have grown from \$72.85 million in 1958 to \$213.29 million in 1967.

Group contributions to revenue in 1967 were: food, \$106.4 million; poultry, \$37 million; housing, \$11.4 million; industrial, \$50.8 million, and financial, \$7.7 million.

Profits in 1967 totaled \$936,547. In the first six months of 1968 they rose to \$1,814,000.

IBEC's president, Rodman Rockefeller—son of the governor—says the corporation plans to extend its operations on a geographical scale with particular interest in Southeast Asia.

IBEC's newest undertaking is building houses under a mutual-help program for Choctaw, Cherokee and Creek Indians in Oklahoma.

The Rockefellers are majority stockholders in IBEC but there are about 1,000 other shareholders.

Dear Editor: In reference to an article which appeared in last week's paper of a "Deputy Dismissed," Sheriff Radcliff stated that I was placed on indefinite suspension on Sept. 9, for conduct unbecoming an officer.

This being in regards to an incident that occurred while I was directing traffic at Du Pont Road and U.S. Route 23.

Sheriff Radcliff also stated that on Sept. 29, I refused to submit my resignation. This being true, I don't believe my conduct was unbecoming an officer, however I was dismissed as a Deputy Sheriff of Pickaway County on this date.

Sheriff Radcliff to this date, hasn't stated to me as to what his complete investigation showed nor to my knowledge has he talked to the three persons who witnessed the incident.

Draft Record Burners Tried

BAITMORE, Md. (AP) — The trial of nine persons charged with burning Selective Service records began in U. S. District Court today with a warning from the judge that "order must be maintained."

The courtroom was packed with supporters of the defendants who rose and applauded for about a minute when two of the accused were led into the courtroom.

Filming In Paris

By BOB THOMAS
AP Television-Movie Writer

PARIS (AP) — Why would an American film company come to Paris to make a movie about Las Vegas?

"To please the lady," explains famed director George Stevens. When the lady in question is Elizabeth Taylor, you can understand why 20th Century-Fox is anxious to please her. Besides paying a million dollars for her services, the company sent Stevens, producer Fred Kohlmar and various technicians to film "The Only Game in Town" at the Boulogne studios here.

French technicians have erected a reproduction of a Las Vegas motel on a movie stage. In the background is an amazingly accurate miniature of the Vegas Strip, with casino signs glittering in neon.

Kohlmar explained the essential reason for filming here: "Elizabeth has the peculiarity of not wanting to leave her husband. And since he is making a film 'The Staircase' in Paris she wants to be here. So we shoot in Paris."

A further reason may be to avoid American taxes. Kohlmar said the matter never came up. Miss Taylor will join the company for three weeks of filming in the real Las Vegas, but that may not affect her tax status.

To add to Miss Taylor's pleasure, Fox has decorated her studio dressing room at a reported cost of \$30,000. The same was done to please her costar, Frank Sinatra. But when Miss Taylor's recent operation delayed the start of the film, Sinatra bowed out. His replacement: Warren Beatty.

"The Only Game in Town" marks the return to filming by Stevens after a four-year lapse. His last picture was "The Greatest Story Ever Told."

"Once before I laid off for four years," he commented, "and when I came back, I found that I did my best work. So maybe it's not such a bad idea after all."

He was speaking of his service during World War II, when he made films for the Army, including documentaries of concentration camps. Stevens had special memories of the Boulogne studio.

"We liberated it," he recalled. "When we arrived here, the Germans were loading equipment into trucks and trying to get away with it."

The withdrawal of Sinatra from "The Only Game in Town" prevented a confrontation that Hollywood had been anticipating with relish.

OCTOBER, 1948
20 YEARS AGO
Two western horse show events were scheduled for the 1948 Pumpkin Show. Earl C. Reed of Ashville was named to head the committee which was to handle the event staged at Ted Lewis Park.

The days of billowing, black smoke from the switchyards of the Pennsylvania RR were no more with the arrival of the railroad's new diesel-electric switch engine in Circleville.

Marilyn Hennis reigned as homecoming queen when Circleville High School met with Westerville before a capacity crowd of 2,700. Attendees were Nancy Eshelman and Delores Elsea.

Letters from service clubs and organizations continued to arrive for the county commissioners "demanding" that the commissioners appropriate a fund to determine "what actually is needed" at the Children's Home to bring the home up to par. No action was taken by commissioners.

County superintendent George D. McDowell announced there were 167 teachers employed in the county schools for the 3,570 students—a ratio of 23 pupils per instructor.

Pickaway County Commissioners approved the purchase of new deep-freeze units for the county jail and old folks home.

Other winners of the 1933 Pumpkin Show were Mrs. Turney Pontius for the best roll butter; Mrs. Ralph Head, best design butter; best honey, Hurst and son; best white loaf bread, Mabel Manson who also had the best white rolls; graham bread, Mrs. Ed Stanton; nut bread, Mrs. Stanley Glick.

Pickaway County farmers were offered a loan rate of \$1.49 per bushel on their 1948 corn crop, up from the previous year's rate by 7 cents.

The celebrated Hog Ordinance was killed by city council. If

passed the ordinance would have made all individuals, partnerships or corporations "keeping, maintaining or harboring hogs" within the city limits liable to a \$5 to \$25 fine.

John Walters —groceries and meats —moved from E. Main St. where it had been located for 22 years to a new location—the recently remodeled building at the corner of E. Franklin and S. Washington Sts.

Today is Wednesday, Oct. 9, the 283rd day of 1968. There are 83 days left in the year.

Today's highlight in history: On this date in 1871, Russia formally transferred Alaska to the United States.

On this date:

In 1701, Yale College was chartered at New Haven, Conn.

In 1780, Russian forces captured Berlin.

In 1934, King Alexander of Yugoslavia was assassinated while on a visit to Marseilles, France.

In 1942, the United States and Britain pledged they would give up extra territorial rights in China.

In 1943, the Soviets announced they had swept all German troops from the Caucasus.

In 1963, President John F. Kennedy approved the sale of \$250,000 worth of wheat to the Soviet Union.

Ten years ago — Pope Pius XII died at 82 after a reign of 19 years.

Five years ago —Thousands of persons were feared killed as water cascaded over the Valtellina Dam in Italy after a landslide.

One year ago —In South Vietnam, the U.S. Army moved 4,000 troops into the Da Nang area to assist Marines facing strong Communist forces.

Laff-A-Day

Every Day Halloween?

By JOHN CHAMBERLAIN

What are we to do for Halloween this year? Since the Hippies and Yippies have into sight, every day has become Halloween.

Dig, for example, the Yippie leader Jerry Rubin. His get-up is no more and no less fantastic than the costumes dreamed up for Halloween by the gang that consorts with my ten-year-old son. As Jerry emerged between two policemen from that House Office Building hearing in Washington, dressed in beads and sporting a bandolier of live car-triggers, his chest and feet bare and a toy rifle in his hand, I said to myself, out of my memories of the literature of old Salem, that there was a veritable warlock, which is the male counterpart of a witch. All Jerry needed to qualify as the patron saint of a Walpurgisnacht was a consort riding a broom, with a black cat seated on her shoulder.

The whole flavor of the Yippie movement is that of a trick-or-treat night gone mad. The psychology of Yippedom is that of the neighborhood gang at the end of October, when the dry leaves are blowing fitfully, and darkly mischievous spirits seem to be abroad as days grow shorter and the sun colder. Halloween is when the young first discover that they can hold up the adults with impunity, threatening to take the gate off its hinges or tip the mailbox over or soap the car windows unless goodies are spread around on demand.

Since the urge to destruction

lies deep in all children, it makes sense to propitiate them one night a year. But when twenty-year-olds try to turn the whole American scene into a continuous Halloween, how far should propitiation go?

What was the mass Yippie and Hippiie descent on Chicago but a gigantic trick-or-treat expedition? Jerry Rubin, the warlock, laid it on the line for Papa Daley down in the City Hall. Give us the right to use Lincoln and Grant Parks and conduct a march to the convention hall, so the warlock demanded, or we will trick the hell out of you. Papa Daley, who is amused just about as easily as Queen Victoria, and

British promoters of the "Miss World" contest were reportedly upset because last year's winner, a Peruvian beauty, refused to go on the promotional tours the sponsors had arranged for her. That should make her eligible for this year's "Miss Stay-at-Home" title.

The Yippie "movement" wavers between utmost seriousness and being a gigantic put-on game, and it is impossible to determine just how mature are the demands that come out of it. On the one hand, the young have good reason to resent being drafted to fight a war which their elders haven't the guts or the common morality to declare. On the other hand, how can a twenty-year-old think he is proving to his elders that he is old enough to vote when he tosses cans filled with excrement at the Chicago police from a hotel window?

Far be it from this columnist to suggest that nobody should have fun any more when he ceases to be ten years old. But when the twenty-year-olds begin making every day a Halloween, reveling in dirt and dressing like the three weird sisters in "Macbeth," they are defeating their more serious ends. But the bubble gum and the get-up of a bare-chested warlock don't amuse everybody. One suspects that every time Jerry Rubin gets his picture in the papers, a few thousand more Americans join the George Wallace caravan.

If that's what Jerry wants, his conduct makes sense. But the time may come when he won't find it funny anymore.

Greatest Of Freedoms

October 6 to 12 has been designated as Newspaper Week.

Purpose of the observance is not to promote the interests of the press, but to impress upon the public the need for what has come to be known as a free press, admittedly a principal bulwark for a free people.

The newspaper has been an essential instrument in the lives of the American people since the beginning of the Republic.

Its basic purpose has been and always will be: To chronicle the happenings of the day, accurately and completely. Its next and inseparable function is to try to place the facts concerning these happenings in perspective — to give them meaning in the light of other events, past and present.

The newspaper has other important purposes — to serve as a medium for advertising, to entertain and amuse, to serve as a public forum.

Today half the world is under news censorship. Control of the press is the first and most important step in the subjugation of a people by a dictator. Denied access to the facts under censorship and press control, the people can base their judgment only on half-truths and outright lies, fed to them as a necessary preliminary to enslavement.

That this is frightfully true has been proven by developments in countries now under dictatorship. Governments have been overthrown and the rights of the people abrogated in many instances because they were denied the facts which would have been made available by a free press.

Where newspapers are free from government restrictions, as they are in the United States, people are free to select the reading matter of their choice. This is one of the greatest of all freedoms.

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

When a divorced person remarries, he usually chooses another divorced person as his second mate. Only in four cases out of 10 does the divorced one wed a partner who has never been married.

Sixteen million Americans now work at industrial jobs where noise threatens to affect their hearing, which can be impaired by steady exposure to sounds about 90 decibels. A subway generates 95 decibels, a kitchen blender 93, a jet plane at take off 150. Laboratory mice have been killed by sounds of 175 decibels.

It took the skins of 10,000 calves to produce 30 vellum copies of the famous Bible printed by Johann Gutenberg, the 500th anniversary of whose death is commemorated this year. Al-

though he is now credited with being the originator of movable metal type in the Western world, movable type had been developed earlier in Korea.

Mental retardation caused by widespread malnutrition may explain why some nations of the world remain backward. It is estimated that from 80 to 90 per cent of the population in countries where the diet is chronically deficient may suffer brain damage.

It pays to be tall—but not too tall. A survey of 100 university graduates found that those 6 feet 2 received starting salaries 12.4 per cent higher than those under six feet. The pay scale also was lower for those more than 6 feet 2.

Quotable notables: "There is nothing more disappointing than to anticipate a reward for kindness."—David Seabury.

Pioneers sometimes make poor prophets. Octave Chanute,

prominent flight expert and friend of the Wright brothers, said of the future of airplanes: "The machines will eventually be fast, they will be used in sport, but they are not to be thought of as commercial carriers." But last year U.S. commercial aircraft flew 132 million passengers.

Worth remembering: "Some people just go through life standing at the complaint counter."

Nature lore: Some lightning bolts are five miles long, but the average length is only half a mile. The Dead Sea is 25 per cent salt. Snow isn't frozen rain—sleet is. At birth an opossum is the size of a navy bean. Flying fish can glide 500 feet, and have been known to soar over the decks of small ships.

It was Arthur Schopenhauer who observed, "What most people call fate is mostly their own stupidities."

Every Day Halloween?

By JOHN CHAMBERLAIN

What are we to do for Halloween this year? Since the Hippies and Yippies have into sight, every day has become Halloween.

Dig, for example, the Yippie leader Jerry Rubin. His get-up is no more and no less fantastic than the costumes dreamed up for Halloween by the gang that consorts with my ten-year-old son. As Jerry emerged between two policemen from that House Office Building hearing in Washington, dressed in beads and sporting a bandolier of live cartridges, his chest and feet bare and a toy rifle in his hand, I said to myself, out of my memories of the literature of old Salem, that there was a veritable warlock, which is the male counterpart of a witch. All Jerry needed to qualify as the patron saint of a Walpurgisnacht was a consort riding a broom, with a black cat seated on her shoulder.

The whole flavor of the Yippie movement is that of a trick-or-treat night gone mad. The psychology of Yippiedom is that of the neighborhood gang at the end of October, when the dry leaves are blowing fitfully, and darkly mischievous spirits seem to be abroad as days grow shorter and the sun colder. Halloween is when the young first discover that they can hold up the adults with impunity, threatening to take the gate off its hinges or tip the mailbox over or soap the car windows unless goodies are spread around on demand.

Since the urge to destruction

lies deep in all children, it makes sense to propitiate them one night a year. But when twenty-year-olds try to turn the whole American scene into a continuous Halloween, how far should propitiation go?

What was the mass Yippie and Hippy descent on Chicago but a gigantic trick-or-treat expedition? Jerry Rubin, the warlock, laid it on the line for Papa Daley down in the City Hall. Give us the right to use Lincoln and Grant Parks and conduct a march to the convention hall, so the warlock demanded, or we will trick the hell out of you. Papa Daley, who is amused just about as easily as Queen Victoria, and

who lacks the patience to deal with those who would soap his windshield out of season, told Jerry Rubin, Dave Dellinger, Tom Hayden and the rest of the warlocks that he wasn't putting out any Halloween treats in late August, and if any tricks were forthcoming his cops would take care of the perpetrators. Of course, there's something deeper to the young people's protests than the Halloween symbol would imply. But the surface flavor of the "movement" is right out of the trick-or-treat book of our ten-year-olds.

The Yippie "movement" wavers between utmost seriousness and being a gigantic put-on game, and it is impossible to determine just how mature are the demands that come out of it. The Business World

By JACK LEFLER (For John Cuniff)

NEW YORK (AP) — A U.S. company with the double-barreled aim of making profits and helping the economic and social progress of underdeveloped countries has been operating 21 years but few Americans know about it.

The firm is International Basic Economy Corp., a part of the Rockefeller empire.

It was founded in Brazil and Venezuela in 1947 by Nelson A. Rockefeller, now governor of New York, and his brothers. It now operates 130 subsidiaries and affiliates in 33 countries.

Rockefeller's interest in South America stemmed from a visit in 1937 to the Venezuela oil properties of Creole Petroleum Corp., of which he was a director. It was heightened by his World War II work as U.S. coordinator of commercial and cultural relations between the American Republics.

IBEC's first undertakings in Venezuela were a farming company, a fishing company, a food wholesaling company and a milk company.

Then and now, IBEC executives say, the purpose was: "To do a worldwide, profitable business in fields important to economic development and

concerned with basic human needs."

IBEC's start wasn't without its troubles. American executives ran into resistance to change in the ways of doing business and political and monetary instability. Some of its ventures were ill-conceived for certain areas and failed to show a profit. They have been liquidated.

Operations have been refined into five groups:

Food—Operates 52 supermarkets in South America, raises hybrid seed corn, catches and cans tuna, processes and distributes milk and other food products.

Poultry—Supplies breeding stock to chicken farmers in 23 countries.

Housing — Has constructed about 13,000 one-family, low- and medium-cost houses in Puerto Rico. Programs are under way in Mexico, Peru, the Virgin Islands and the United States.

Industrial—Manufactures a wide range of metal products in the United States and overseas.

Financial services and investment—Manages mutual funds in six countries, plus worldwide insurance brokerage operations and varied investments.

IBEC's revenues have grown from \$72.85 million in 1958 to \$213.29 million in 1967.

Group contributions to revenue in 1967 were: food, \$106.4 million; poultry, \$37 million; housing, \$11.4 million; industrial, \$50.8 million, and financial, \$7.7 million.

Profits in 1967 totaled \$936,547. In the first six months of 1968 they rose to \$1,814,000.

IBEC's president, Rodman Rockefeller—son of the governor—says the corporation plans to extend its operations on a geographical scale with particular interest in Southeast Asia.

IBEC's newest undertaking is building houses under a mutual-help program for Choctaw, Cherokee and Creek Indians in Oklahoma.

The Rockefellers are majority stockholders in IBEC but there are about 1,000 other shareholders.

Dear Editor:

In reference to an article which appeared in last week's paper of a "Deputy Dismissed," Sheriff Radcliff stated that I was placed on indefinite suspension on Sept. 9, for conduct unbecoming an officer. This being in regards to an incident that occurred while I was directing traffic at Du Pont Road and U.S. Route 23.

Sheriff Radcliff also stated that on Sept. 29, I refused to submit my resignation. This being true in that I don't believe my conduct was unbecoming an officer, however I was dismissed as a Deputy Sheriff of Pickaway County on this date.

Sheriff Radcliff to this date, hasn't stated to me as to what his complete investigation showed nor to my knowledge has he talked to the three persons who witnessed the incident.

Filming In Paris

By BOB THOMAS

AP Television-Movie Writer

PARIS (AP) — Why would an American film company come to Paris to make a movie about Las Vegas?

"To please the lady," explains famed director George Stevens.

When the lady in question is Elizabeth Taylor, you can understand why 20th Century-Fox is anxious to please her. Besides paying a million dollars for her services, the company sent Stevens, producer Fred Kohlmar and various technicians to film "The Only Game in Town" at the Boulogne studios here.

French technicians have erected a reproduction of a Las Vegas motel on a movie stage. In the background is an amazingly accurate miniature of the Vegas Strip, with casino signs glittering in neon.

Kohlmar explained the essential reason for filming here: "Elizabeth has the peculiarity of not wanting to leave her husband. And since he is making a film 'The Staircase' in Paris she wants to be here. So we shoot in Paris."

A further reason may be to avoid American taxes. Kohlmar said the matter never came up. Miss Taylor will join the company for three weeks of filming in the real Las Vegas, but that may not affect her tax status.

To add to Miss Taylor's pleasure, Fox has decorated her studio dressing room at a reported cost of \$30,000. The same was done to please her costar, Frank Sinatra. But when Miss Taylor's recent operation delayed the start of the film, Sinatra bowed out. His replacement: Warren Beatty.

"The Only Game in Town" marks the return to filming by Stevens after a four-year lapse. His last picture was "The Greatest Story Ever Told."

"Once before I laid off for four years," he commented, "and when I came back, I found that I did my best work. So maybe it's not such a bad idea after all."

He was speaking of his service during World War II, when he made films for the Army, including documentaries of concentration camps. Stevens had special memories of the Boulogne studio.

"We liberated it," he recalled. "When we arrived here, the Germans were loading equipment into trucks and trying to get away with it."

The withdrawal of Sinatra from "The Only Game in Town" prevented a confrontation that Hollywood had been anticipating with relish.

Marilyn Hennis reigned as homecoming queen when Circleville High School met with Westerville before a capacity crowd of 2,700. Attendees were Nancy Eshelman and Delores Elsea.

Letters from service clubs and organizations continued to arrive for the county commissioners "demanding" that the commissioners appropriate a fund to determine "what actually is needed" at the Children's Home to bring the home up to par. No action was taken by commissioners.

County superintendent George D. McDowell announced there were 167 teachers employed in the county schools for the 3,570 students—a ratio of 23 pupils per instructor.

Pickaway County Commissioners approved the purchase of new deep-freeze units for the county jail and old folks home.

Other winners of the 1933 Pumpkin Show were Mrs. Turney Pontius for the best roll butter; Mrs. Ralph Head, best design butter; best honey, Hurst and son; best white loaf bread, Mabel Manson who also had the best white rolls; graham bread, Mrs. Ed Stanton; nut bread, Mrs. Stanley Glick.

Pickaway County farmers were offered a loan rate of \$1.49 per bushel on their 1948 corn crop, up from the previous year's rate by 7 cents.

The celebrated Hog Ordinance was killed by city council. If

Laff-A-Day

Dear Abby:

By Abigail Van Buren

Ask For Help, But Little At A Time

DEAR ABBY: Ron and I have been married for four years. We have three small children, and I think I'm pregnant again. Ron expects me to wash his hair, manicure his nails (fingers and toes), pick up his dirty clothes, keep the car washed and in running order, and no matter how tired I am, I have to stay up until he's ready to go to bed.

He also expects me to get up before he does so his breakfast will be on the table as soon as he opens his eyes.

I loved him when I married him, but I'm not so sure any more. I think you have the picture. What I want to know is, how do you get a man who expects so much to settle for less?

"HAD IT" IN CHICAGO
DEAR HAD IT: Don't throw the whole book at him at once. Let him have it a page at a time. Start by telling Ron he's expecting too much. And for a wife who's not "sure" of her "love," you're expecting too often.

DEAR ABBY: My 16-year-old daughter has lots of cute young girl friends who come to our house often. I don't mind that, in fact I enjoy having them, but my husband enjoys it too much.

He puts the records on, and asks them to dance. He is overly familiar with them, squeezing them, hugging them, and even trying to kiss them. He tries to get them to sit on his lap, and in general he makes an old fool out of himself.

Not wanting to hurt his feelings, they go along with it, but I can see how pained they are when he tries to pull one of them down on his lap.

Should I tell these girls to discourage him? Or should I tell this old jackass to act his age?

DISGUSTED
DEAR DISGUSTED: Why not cover all the bases, and do both?

DEAR ABBY: This morning a young woman came to my door and said she wanted to talk to me about my husband of three weeks, whom I'll call John. I invited her in, and could scarcely believe my ears.

She told me that she and John had lived together for three years, during which time she had his two children out of wedlock.

Then she said she learned only last week that John had married me, so she told him she wanted to break off with him, but he begged her not to, saying his marriage to me was the biggest mistake of his life—that we weren't getting along, and he had asked me for a divorce. (All lies.)

Abby, my whole world has fallen apart. I can't think straight. I am sure this woman is telling the truth because she knows so much about John and me, and now so many things I never understood before seem to fall into place.

Should I tell John what I know? Or should I pack up and leave without saying anything? He is so persuasive, I'm afraid he might talk me into staying. I'm all torn up

Pickaway Grange

PICKAWAY YOUTH GRANGE
Keith Lands, newly elected president of the Pickaway Grange Youth Group, was in charge of the last meeting of the 1968 Grange year Monday at the home of Debbie and Rob Archer with fifteen members and guests present.

After reports by the officers of 1968 and the youth chairman, election for the new Grange year was held. Other officers elected were: vice-president, Betty Bolender; secretary, Barbara McKenzie; treasurer, Wilma Judy; chaplain, Debbie Archer; news reporters, Rob Archer and Paul Dunkle. The appointed recreation committee consists of Barbara McKenzie, Ron Hendershot, and Betty Bolender.

Currently the youth team is busy installing grange officers in this and neighboring counties. Thursday night the team will perform at Hilliard and on Nov. 2, will install the officers of the Hocking County Granges, at Logan.

After some discussion it was decided to again sponsor a district youth conference during the Christmas Holiday season, and to have a winter party early in the month of December at the home of Phil and Wilma Judy.

The youth group will be represented at the Ohio State Grange Convention by the prince, Doyle Miller, and the princess, Debbie Archer. This convention will be held in Dayton the last week of October.

The harvest meeting will be held at the home of Keith and Bob Lands on Nov. 4, beginning at 7:30 p.m.

Tips On Fire Prevention

A qualified professional should clean and inspect your heating system and chimneys annually. If repairs are needed, call in an expert.

Should the ceiling and walls near the furnace feel hot, you may need additional insulation to keep them from charring or catching fire.

If you have a fireplace, keep a sturdy metal screen in front. Provide metal cans for ashes.

Set portable space heaters level and out of the way of traffic. Keep them away from anything that might catch fire.

Turn off portable heaters before you go to bed.

New Type Medical Practitioner Trained

By BURL OSBORNE
Associated Press Writer
DENVER, Colo. (AP) — A new kind of medical practitioner will be trained at the University of Colorado Medical School in an attempt to meet an impending crisis in health care for children.

The work will have a range broader than a nurse's but narrower than a doctor's. The workers will meet the medical needs of children who don't require special attention or care for serious ailments.

This new category of medicine—it doesn't have a formal name yet—is the brainchild of Dr. Henry K. Silver of the medical school's department of pediatrics.

Silver said vast numbers of children already are "receiving grossly inadequate total health care." And, he said, "It's going to get much worse."

He said estimates place the child population of the United States at 76 million by 1980. To provide adequate health care for these children an additional 100,000 pediatricians need to be trained by then, he said.

The quota cannot be met, even allowing for a drastic increase in the present rate of fewer than 1,000 pediatricians entering practice each year.

Silver's plan will begin to become a reality when the first group of trainees starts classes next summer.

With this specialized training, the new practitioner will be ready to see patients after five years of post-high school study, compared with 11 years to put a pediatrician into practice and nine years for a general practitioner.

"This is not a substitute for a doctor, but entails more actual responsibility than a nurse or

some form of medical technician," he explained.

The training period can be shorter, he said, because the courses will be focused mainly on the needs of children. This abbreviated training should make the program attractive to those—such as women who want a medical career along with marriage and family—who don't want to spend the time required to become a doctor, Silver said.

"This opens the health profession to people who might have had to select another area of study," Silver said. The pay, he said, is expected to start at \$10,000 to \$12,000 with increases up to \$15,900.

The training would include two years of undergraduate study, two years at the medical school in basic sciences and clinical experience, and a one-year internship. Those complet-

ing the course would be awarded bachelor's degrees.

These new workers—they may be called "child care associates" or some similar name—would undergo examinations and certification by the Colorado State Board of Medical Examiners before starting practice.

The associates will work under supervision in offices of private physicians or public health departments. They will be able to handle about 80 per cent of the patient load seen by a pediatrician on a normal day.

The doctor would be freed for more seriously ailing patients.

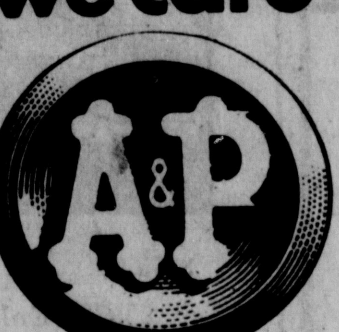

Some flowers have done so well in adopted lands that their origin is forgotten. Holland's tulip comes from Turkey. Conquistadors returned from Mexico to Europe with the "French" marigold.

those with special problems, for research or for keeping himself up to date.

Medical societies in Colorado have approved the plan, and an advisory committee from these groups is drawing up enabling legislation to be placed before the Colorado legislature when it convenes in January.

Dear Abby:

By Abigail Van Buren

Ask For Help, But Little At A Time

DEAR ABBY: Ron and I have been married for four years. We have three small children, and I think I'm pregnant again.

Ron expects me to wash his hair, manicure his nails (fingers and toes), pick up his dirty clothes, keep the car washed and in running order, and no matter how tired I am, I have to stay up until he's ready to go to bed.

He also expects me to get up before he does so his breakfast will be on the table as soon as he opens his eyes.

I loved him when I married him, but I'm not so sure any more. I think you have the picture. What I want to know is, how do you get a man who expects so much to settle for less?

"HAD IT" IN CHICAGO
DEAR HAD IT: Don't throw the whole book at him at once. Let him have it a page at a time. Start by telling Ron he's expecting too much. And for a wife who's not "sure" of her "love," you're expecting too often.

DEAR ABBY: My 16-year-old daughter has lots of cute young girl friends who come to our house often. I don't mind that, in fact I enjoy having them, but my husband enjoys it too much.

He puts the records on, and asks them to dance. He is overly familiar with them, squeezing them, hugging them, and even trying to kiss them. He tries to get them to sit on his lap, and in general he makes an old fool out of himself.

Not wanting to hurt his feelings, they go along with it, but I can see how pained they are when he tries to pull one of them down on his lap.

Should I tell these girls to discourage him? Or should I tell this old jackass to act his age?

DISGUSTED
DEAR DISGUSTED: Why not cover all the bases, and do both?

DEAR ABBY: This morning a young woman came to my door and said she wanted to talk to me about my husband of three weeks, whom I'll call John. I invited her in, and could scarcely believe my ears.

She told me that she and John had lived together for three years, during which time she had his two children out of wedlock.

Then she said she learned only last week that John had married me, so she told him she wanted to break off with him, but he begged her not to, saying his marriage to me was the biggest mistake of his life—that we weren't getting along, and he had asked me for a divorce. (All lies.)

Abby, my whole world has fallen apart. I can't think straight. I am sure this woman is telling the truth because she knows so much about John and me, and now so many things I never understood before seem to fall into place.

Should I tell John what I know? Or should I pack up and leave without saying anything? He is so persuasive, I'm afraid he might talk me into staying. I'm all torn up

Pickaway Grange

PICKAWAY YOUTH GRANGE

Keith Lands, newly elected president of the Pickaway Grange Youth Group, was in charge of the last meeting of the 1968 Grange year Monday at the home of Debbie and Rob Archer with fifteen members and guests present.

After reports by the officers of 1968 and the youth chairman, election for the new Grange year was held. Other officers elected were: vice-president, Betty Bolender; secretary, Barbara McKenzie; treasurer, Wilma Judy; chaplain, Debbie Archer; news reporters, Rob Archer and Paul Dunkle. The appointed recreation committee consists of Barbara McKenzie, Ron Hendershot, and Betty Bolender.

Currently the youth team is busy installing grange officers in this and neighboring counties. Thursday night the team will perform at Hilliard and on Nov. 2, will install the officers of the Hocking County Granges, at Logan.

After some discussion it was decided to again sponsor a district youth conference during the Christmas Holiday season, and to have a winter party early in the month of December at the home of Phil and Wilma Judy.

The youth group will be represented at the Ohio State Grange Convention by the prince, Doyle Miller, the princess, Debbie Archer. This convention will be held in Dayton the last week of October.

The harvest meeting will be held at the home of Keith and Bob Lands on Nov. 4, beginning at 7:30 p.m.

Tips On Fire Prevention

A qualified professional should clean and inspect your heating system and chimneys annually. If repairs are needed, call in an expert.

Should the ceiling and walls near the furnace feel hot, you may need additional insulation to keep them from charring or catching fire.

If you have a fireplace, keep a sturdy metal screen in front. Provide metal cans for ashes.

Set portable space heaters level and out of the way of traffic. Keep them away from anything that might catch fire.

Turn off portable heaters before you go to bed.

New Type Medical Practitioner Trained

By BURL OSBORNE
Associated Press Writer

DENVER, Colo. (AP) — A new kind of medical practitioner will be trained at the University of Colorado Medical School in an attempt to meet an impending crisis in health care for children.

The work will have a range broader than a nurse's but narrower than a doctor's. The workers will meet the medical needs of children who don't require special attention or care for serious ailments.

This new category of medicine—it doesn't have a formal name yet—is the brainchild of Dr. Henry K. Silver of the medical school's department of pediatrics.

Silver said vast numbers of children already are "receiving grossly inadequate total health care." And, he said, "It's going to get much worse."

He said estimates place the child population of the United States at 76 million by 1980. To provide adequate health care for these children an additional 100,000 pediatricians need to be trained by then, he said.

The quota cannot be met, even allowing for a drastic increase in the present rate of fewer than 1,000 pediatricians entering practice each year.

Silver's plan will begin to become a reality when the first group of trainees starts classes next summer.

With this specialized training, the new practitioner will be ready to see patients after five years of post-high school study, compared with 11 years to put a pediatrician into practice and nine years for a general practitioner.

"This is not a substitute for a doctor, but entails more actual responsibility than a nurse or

some form of medical technician," he explained.

The training period can be shorter, he said, because the courses will be focused mainly on the needs of children. This abbreviated training should make the program attractive to those—such as women who want a medical career along with marriage and family—who don't want to spend the time required to become a doctor, Silver said.

"This opens the health profession to people who might have had to select another area of study," Silver said. The pay, he said, is expected to start at \$10,000 to \$12,000 with increases up to \$15,900.

The training would include two years of undergraduate study, two years at the medical school in basic sciences and clinical experience, and a one-year internship. Those complet-

ing the course would be awarded bachelor's degrees.

These new workers—they may be called "child care associates" or some similar name—would undergo examinations and certification by the Colorado State Board of Medical Examiners before starting practice.

The associates will work under supervision in offices of private physicians or public health departments. They will be able to handle about 80 per cent of the patient load seen by a pediatrician on a normal day.

The doctor would be freed for more seriously ailing patients,

those with special problems, for research or for keeping himself up to date.

Medical societies in Colorado have approved the plan, and an advisory committee from these groups is drawing up enabling legislation to be placed before the Colorado legislature when it convenes in January.

Campus Church Ceremony Solemnizes Wedding Vows

MRS. DONALD CROOKS

Miss Sarah Blaker and Donald Crooks exchanged vows on Saturday, Sept. 21, at Circleville Campus Church of Christ in Christian Union. The Rev. Melvin Maxwell and the Rev. David Van Hoose performed the 7:30 p.m. ceremony.

The bride is the daughter of Mrs. Belle E. Blaker, Glen Burnie, Md. (formerly of Circleville) and the late Mr. Joseph Blaker. The bridegroom is the son of Mr. and Mrs. Lewis Crooks of Chillicothe.

The bride, given in marriage by her brother-in-law, Michael C. Heller, wore a gown of peau de soie designed with a sculptured neckline and long sleeves. The princess style gown featured back fullness cascading into a chapel train from two cabashon roses at the back waistline. She carried a

cascade of fugi mums with stephanotis.

Mrs. Dorothy Penird served as matron of honor and bridesmaids were Miss Vicki Whited, Miss Diane Hauld, and Miss Carolyn Rihl. The attendants floor length gowns of satin featured the fall colors, each with matching headpiece. Bronze mums were carried by each.

Tina Smith served as flower girl, while Michael C. Heller Jr., nephew of the bride, was ringbearer.

Lewis Crooks, brother of the groom, served as best man. Guests were seated by John Maxwell, David Dean, and Phil Conrad.

Completing the wedding party were the candlelighters, Rose Carol Brevard and Twana Moats.

The reception, immediately following the wedding, was held at the Good Shepherd United Methodist Church in Circleville.

Following the wedding trip to the Smoky Mountains, the couple will be residing in Circleville.

Boyer To Head Procter & Gamble

CINCINNATI (AP) — Shareholders of Procter & Gamble have elected as board director Willis B. Boyer, president of Republic Steel Corp. of Cleveland.

Boyer was named Tuesday to the post vacant since the death of William K. Whiteford on Sept. 11.

Book Review Presented At Monday Club Meeting

Mrs. E. S. Shane reviewed the book "Green Medicine" during the Oct. 7 meeting of Monday Club in Trinity Lutheran Church.

A short business session was held with Mrs. O. E. Barr, president, presiding. Mrs. Barr and Mrs. W. A. Cox reported on the conference of the Central Ohio River District of the Ohio Federation of Women's Clubs held at Lake Hope. Miss Elizabeth Tolbert was welcomed as a new member of the club.

Items made by blind persons and the Ohioana Year Books were displayed for members to purchase.

In reporting the book review, Mrs. Shane stated that "Green Medicine" was written by Margaret B. Krieg after four years of research, here and abroad. She accompanied a scientific expedition to the Amazon and observed field botanists at work in remote parts of Mexico. The book is divided into three parts and has for its subtitle "The Search For Plants That Heal." It emphasizes the investigation of the vegetable kingdom for new sources of botanical drugs. Of the estimated 4,000 drugs being used today more than two-thirds have developed only during the past ten years.

The book begins with a science editor of the New York Times who had been permitted to attend a closed meeting of the Mayo Clinic doctors who had been working with cordisone. After efforts to obtain the plants containing the drug from Africa were abandoned, all interest in obtaining cordisone from plants was directed

toward the wild yams in Mexico.

In the second part of the book the author tells of drug plants and legend surrounding them. Current research is showing medicinal properties in everything from lettuce, used by the ancients as a sedative, to apples and onions. Antibiotic properties exist in many plants.

Part three of the book explores some of botanical breakthroughs in the three greatest killers and cripples, cancer, cardiovascular diseases and mental illness. It is possible that drugs as diverse as those found in land plants may also be available in the sea.

In conclusion the point was brought out that some expeditions which seemed fruitless have proved to have important consequences in later years. There is always another plant somewhere that should be collected and the world-wide search for the plant that heals goes on unabated.

How Weather Looks Today

OHIO WEATHER SUMMARY
COLUMBUS, Ohio (AP) — Official Weather Bureau summary for Ohio:

Mostly sunny skies combined with light winds to make for a pleasant day over Ohio Tuesday. Afternoon temperatures climbed into the 60s over most of the state.

Mostly sunny skies were forecast for the forenoon today, but cloudiness will begin spreading across the state from the west this afternoon as a cold front approaches.

Showers and scattered thunderstorms are expected to reach the western border this evening or early tonight and spread to the eastern border by morning and continue Thursday.

Low temperatures tonight are expected to be in the 50s. Cloudiness and showers along with the cold front moving across the state Thursday will result in cooler weather Thursday.

Boyer was named Tuesday to the post vacant since the death of William K. Whiteford on Sept. 11.

Book Review Presented At Monday Club Meeting

Mrs. E. S. Shane reviewed the book "Green Medicine" during the Oct. 7 meeting of Monday Club in Trinity Lutheran Church.

A short business session was held with Mrs. O. E. Barr, president, presiding. Mrs. Barr and Mrs. W. A. Cox reported on the conference of the Central Ohio River District of the Ohio Federation of Women's Clubs held at Lake Hope. Miss Elizabeth Tolbert was welcomed as a new member of the club.

Items made by blind persons and the Ohioana Year Books were displayed for members to purchase.

In reporting the book review, Mrs. Shane stated that "Green Medicine" was written by Margaret B. Krieg after four years of research, here and abroad. She accompanied a scientific expedition to the Amazon and observed field botanists at work in remote parts of Mexico. The book is divided into three parts and has for its subtitle "The Search For Plants That Heal." It emphasizes the investigation of the vegetable kingdom for new sources of botanical drugs. Of the estimated 4,000 drugs being used today more than two-thirds have developed only during the past ten years.

The book begins with a science editor of the New York Times who had been permitted to attend a closed meeting of the Mayo Clinic doctors who had been working with cortisone. After efforts to obtain the plants containing the drug from Africa were abandoned, all interest in obtaining cortisone from plants was directed

NEW YORK (AP) — CBS News with its new semimonthly "60 minutes" has worked out a fine, flexible format with the approximate relationship to its nightly news programs that a magazine has to a daily newspaper.

The program can dip into a number of areas during the hour—and did on Tuesday night. There was a feature on the government's development of chemical and biological agents as weapons of war; a biting musical number from an anti-establishment satire poking fun at Georgia Gov. Lester Maddox; a Mike Wallace interview with Richard M. Nixon with the Republican candidate answering without heat some very blunt questions; a short but disenchanted report by the principals—Graham Hill and wife—on the life of a racing car driver and his family.

The longest presentation concerned chemical warfare. It was illustrated by film showing tests of lethal nerve gases and of others, called "incapacitators" that are not deadly but effective in knocking out people. There were assurances by Pen-

tagon experts that the nation will never instigate warfare with lethal chemicals, but must develop them for possible retaliation or, if necessary, defense.

Nixon, interviewed in his New York apartment, discussed and defended his career in answer to questions that ranged from the handling of his press relations to whether he felt he had in the past committed "political excesses."

He offered the opinion that "history will be kinder to Lyndon Johnson than his contemporaries," and said he believed Johnson withdrew for the sake of the nation.

Hubert H. Humphrey and perhaps George C. Wallace will receive similar treatment from "60 minutes" within the next few weeks.

Biological warfare—plague, botulism and anthrax—will be studied in the next edition.

NBC this season has placed Jerry Lewis' hour of fun and frolic at the head of its Tuesday night schedule, a perfect spot for a show that has special appeal for the younger members of the television audience.

Lewis, as usual, was on camera practically all the time and made a lot of funny faces and got dressed up in funny clothes. He even took part in the opening production number with the dancers.

There is an annoying tendency to extend the sketches far beyond the point at which the joke has been hammered into place.

One started out as a funny, satirical bit—the sudden appearance of the Man from Gad in the kitchen when the husband started to argue with his wife about his stale sandwiches.

The sketch went on and on with more characters from the commercials arriving until it lost the sharp original point.

Barbara Eden, who seems to get around the variety shows as a guest star a lot these days, worked well in the comedy scenes with Lewis and was outstanding in her own song and dance number.

Wiggins Says Middle East Top Priority

UNITED NATIONS, N.Y. (AP) — Ambassador James Russell Wiggins said today the United States is prepared to carry out its obligations as a member of the United Nations to help guarantee any Middle East peace settlement.

In an informal meeting with the press, the new U.N. representative declared he was giving top priority to the Middle East question. He already had discussed it with Secretary-General U Thant and with U.N. envoy Gunnar V. Jarring since taking over his new post Monday.

He said the U.S. government considered that efforts to find a solution to the Israeli-Arab conflict were a "matter of utmost urgency" and declared that the United States was ready to give Jarring its full support.

"The time for movement in this area is now," he said.

On the question of joining the other big powers in guaranteeing compliance with any Middle East peace agreement, Wiggins noted that, both as a member of the United Nations and as a permanent member of the Security Council, the United States had obligations in the field of peacekeeping. "To that extent," he said, the United States would help provide guarantees.

Wiggins' remarks came as Foreign Minister Abba Eban prepared to present Israel's views on peace prospects in the Middle East.

MONTGOMERY, Ala. (AP) — In every campaign speech, George C. Wallace talks about "the breakdown of law and order." He blames the two major political parties and the federal courts.

And, says the third party candidate, if he is elected president "your wife can walk to the supermarket or ride the transit system" in safety.

Late in September, Vice President Hubert H. Humphrey began questioning Wallace's own record for law and order as governor of Alabama.

Humphrey, the Democratic nominee, told the Wisconsin state AFL-CIO convention at Milwaukee, "Wallace, who says he will restore law and order, was governor of a state which has one of the highest murder rates—roughly twice that for the whole country."

During Wallace's administration from 1963 to 1967, he said, the crime rate in Alabama rose 55.6 per cent, exceeding the national average.

At Jacksonville, Fla., on Oct. 2, the vice president charged

1,800 Girls Are Needed For Dates

CHICAGO (AP) — Many a man would envy James McDonough.

He has been assigned to recruit 1,800 girls, age 18 to 22, as blind dates for Air Force cadets and Naval Academy midshipmen at a dance Saturday after the Navy-Air Force football game in Soldier Field.

But for McDonough, city commissioner of streets and sanitation, it's a big headache.

He was given less than two weeks to sign up the lasses.

The last time girls and academy men were matched after the game was in 1965, when 5,000 females applied to be dates for 2,000 males.

The lucky 1,800 girls—who must be high school graduates—will be allocated to the men according to lists provided by the academies.

And, true to military form, they'll be matched with the men by the number.

"They're given the name of their date—he's in Squadron 10, No. 7," said McDonough, who was appointed date-recruiter by Mayor Richard J. Daley.

"But they tell me that only lasts for a while," he added. "Then the guys start grabbing the best looking girl that comes along, and running."

Some 800 girls showed up Monday night for interviews with the screening committee in a normally masculine stronghold, the City Council chambers. Another session was scheduled for Tuesday.

Chicago, which will pay a \$250,000 bill for transporting and entertaining the sailors and airmen, has told the girls they'll have to provide their own rides home.

Set Mediation At Coshocton

COSHOCKTON, Ohio (AP)—The federal mediation service has entered negotiations to end the strike of United Steelworkers at the Clow Corp. plant here, hit by a walkout of nearly 600 union members Sept. 26.

Firing of a union steward and the president of the local are issues in the negotiations. The company claims the contract requires arbitration of such disputes, and the union local says it will turn down arbitration until the firings are changed to suspensions.

Edward McManus, the federal mediator from Columbus, will sit in on a negotiation session next Thursday afternoon.

that the third party candidate "could not maintain order in his own state—where he had the power—but now he promises to maintain order in every city and state where he will not have the power."

Later that day, he told a crowd at Charlotte, N.C., that he had a better record for keeping law and order as mayor of Minneapolis some 20 years ago than his opponent had as governor.

Wallace had been confronted with Alabama's crime rate before, mostly at news conferences and in interviews. His response on CBS' "Face the Nation" television show Sept. 22 was typical.

Alabama has 900,000 Negro residents (about 35 per cent of the population) he said, "and I do not mean to reflect upon people because of color at all, but the crime rate among them against each other, crimes of violence, of assault and murder, is astronomically high."

"Now, I don't know why that is. I don't know why Negro citizens attack and assault one another."

Police departments in Alabama for the most part say they do not keep cumulative crime records by race, but generally they say most of the homicides and assaults are committed by Negroes against Negroes.

One police official at Mobile

agreed to go back through every murder and assault report for June through August and found, he said, that all five slayings in the city in those three months were crimes where Negroes killed Negroes.

Of the 97 assaults with gun or knife, he said 80.4 per cent were committed by Negroes against Negroes.

In the context of his campaign speeches, Wallace talks of law and order mostly in reference to "crime in the streets." Most of the offenses in Alabama are committed in homes or beer joints, he says, and frequently involve relatives or acquaintances.

He distinguishes between that type of crime and the type which, he says, makes it dangerous to walk in the streets of some of the nation's major cities.

To almost every audience, he illustrates his point in words like these: "If you get knocked in the head when you leave here, the person who knocks you in the head will be out of jail before you get to the hospital, and on Monday morning, they'll try a policeman about it."

Federal court decisions, he contends, have made it difficult if not impossible in some instances for police to enforce the law.

Wallace argues, too, that Ala-

bama has had no widespread rioting, looting or burning of buildings as some states have. The present state public safety

Work Starts On Prison

LUCASVILLE, Ohio (AP) — Gov. James A. Rhodes will turn the first earth here Wednesday for a \$25.6 million prison state penal officials envision as "close to a dream come true."

Also manning shovels in the 2 p.m. groundbreaking will be Martin A. Janis, director of the Ohio Department of Mental Hygiene and Corrections; M. C. Koblenz, state corrections chief; Alfred C. Glenow, director of the Ohio Department of Public Works; and representatives of the contractors.

The new institution, temporarily named Southern Ohio Penitentiary, will be built on 1,982 acres of farmland just south of this Scioto County village and 10 miles north of Portsmouth.

It is designed to replace the historic Ohio Penitentiary in Columbus, parts of which are 134 years old. The new prison will have a capacity of 1,800 inmates in four types of security—maximum, medium, light and honor.

director, Floyd Mann, agrees. "There have been some incidents of fire bomb throwing," says Mann—who took office last May after Wallace's wife, Gov. Lurleen Wallace, died and Albert Brewer became governor. "But they have been sporadic."

Alabama has managed to escape disastrous rioting, the public safety director says, primarily because "the people who are prone to riot know the law enforcement officers will take whatever steps are necessary to meet it."

Mann says he has laid down a color-blind policy of enforcement. "My instructions are to treat everybody alike regardless of race and enforce the law equally and impartially."

While Wallace was governor,

he increased the strength of the Highway Patrol from approximately 440 officers to 640. He sent them to school to learn riot control, give them better equipment—including air-conditioned squad cars—and got their pay raised.

The third party candidate says "crime in the streets"—which in his language includes rioting and looting—is caused mostly by "anarchists" and "revolutionaries." He says both major parties have "kowtowed to them" at every turn.

August Deadliest Highway Month

CHICAGO (AP) — August was the deadliest month in the nation's highway traffic history.

The National Safety Council reported today that 5,280 persons died in August traffic, topping the previous one-month high of 5,160 in December 1967.

August, because of summer vacation traffic, frequently has one of the highest monthly death totals, but the council said that August 1968 totaled a 9 per cent increase over August 1967.

Highway deaths totaled 35,230 for the first eight months of 1968, 6 per cent above 1967—when 33,390 persons died in the same period.

Nixon Assets Just Over Half Million

MINNEAPOLIS, Minn. (AP) — An aide to Richard M. Nixon said Tuesday that the GOP presidential hopeful has personal wealth of just over a half million dollars.

The information had been requested by the Chicago Tribune and was supplied by Ron Ziegler, a Nixon press aide, during a campaign appearance here.

Assets of the former vice president were listed at \$558,190, according to Nixon's business manager, and liabilities were given as \$342,360.

The bulk of Nixon's wealth is in undeveloped land in Florida. This accounts for \$401,382 of the candidate's \$515,830 total net worth.

Other assets include the family home in Whittier, Calif., at \$110,000 market value and a New York City cooperative apartment worth \$166,856.

Most of Nixon's liabilities are in bank loans and mortgages secured by real estate.

Ziegler said Nixon has bank accounts totaling \$39,385—according to business manager Vincent Andrews—and life insurance policies with a cash value of \$16,957. His civil service retirement benefits for service in the House of Representatives and Senate are worth \$18,605.

In addition, Nixon's interest in his New York law practice is valued at \$45,000. Personal property of the Nixon's is estimated at \$60,000.

Mulele Gets Death Word

KINSHASA, Congo. (AP) — Congolese rebel leader Pierre Mulele was sentenced to death by a special military court today after a 15-hour trial.

Mulele, who had returned to the Congo on a safe conduct provision under amnesty laws, immediately appealed for clemency to President Joseph Mobutu.

The news of the verdict was announced by Kinshasa radio.

Mulele, chief of the rebels in Kwilu province, had spent four years in exile. A leftist, he had led one of the bloodiest uprisings of the Congo's eight years of independence.

He returned to the Congo on Sept. 28 from the Congo Republic, the Congo's neighbor.

The court, composed of three superior officers of the Congolese army whose names were withheld, met behind closed doors at an undisclosed location. The trial began Monday afternoon.

Wallace's Record On Law And Order Under Study

MONTGOMERY, Ala. (AP)

One police official at Mobile

agreed to go back through every murder and assault report for June through August and found, he said, that all five slayings in the city in those three months were crimes where Negroes killed Negroes.

Of the 97 assaults with gun or knife, he said 80.4 per cent were committed by Negroes against Negroes.

In the context of his campaign speeches, Wallace talks of law and order mostly in reference to "crime in the streets." Most of the offenses in homes or beer joints, he says, and frequently involve relatives or acquaintances.

He distinguishes between that type of crime and the type which, he says, makes it dangerous to walk in the streets of some of the nation's major cities.

To almost every audience, he illustrates his point in words like these: "If you get knocked in the head when you leave here, the person who knocks you in the head will be out of jail before you get to the hospital, and on Monday morning, they'll try a policeman about it."

Federal court decisions, he contends, have made it difficult if not impossible in some instances for police to enforce the law.

Wallace argues, too, that Ala-

bama has had no widespread rioting, looting or burning of buildings as some states have. The present state public safety

Work Starts On Prison

LUCASVILLE, Ohio (AP) — Gov. James A. Rhodes will turn the first earth here Wednesday for a \$25.6 million prison state penal officials envision as "close to a dream come true."

Also manning spades in the 2 p.m. groundbreaking will be Martin A. Janis, director of the Ohio Department of Mental Hygiene and Corrections; M. C. Koblenz, state corrections chief; Alfred C. Gienow, director of the Ohio Department of Public Works; and representatives of the contractors.

The new institution, temporarily named Southern Ohio Penitentiary, will be built on 1,982 acres of farmland just south of this Scioto County village and 10 miles north of Portsmouth.

It is designed to replace the historic Ohio Penitentiary in Columbus, parts of which are 134 years old. The new prison will have a capacity of 1,800 inmates in four types of security—maximum, medium, light and honor.

director, Floyd Mann, agrees.

"There have been some incidents of fire bomb throwing," says Mann—who took office last May after Wallace's wife, Gov. Lurleen Wallace, died and Albert Brewer became governor. "But they have been sporadic."

Alabama has managed to escape disastrous rioting, the public safety director says, primarily because "the people who are prone to riot know the law enforcement officers will take whatever steps are necessary to meet it."

Mann says he has laid down a color-blind policy of enforcement. "My instructions are to treat everybody alike regardless of race and enforce the law equally and impartially."

While Wallace was governor,

he increased the strength of the Highway Patrol from approximately 440 officers to 640. He sent them to school to learn riot control, give them better equipment—including air-conditioned squad cars—and got their pay raised.

The third party candidate says "crime in the streets"—which in his language includes rioting and looting—is caused mostly by "anarchists" and "revolutionaries." He says both major parties have "kowtowed to them" at every turn.

August Deadliest Highway Month

CHICAGO (AP) — August was the deadliest month in the nation's highway traffic history.

The National Safety Council reported today that 5,280 persons died in August traffic, topping the previous one-month high of 5,160 in December 1967.

August, because of summer vacation traffic, frequently has one of the highest monthly death totals, but the council said that August 1968 totaled a 9 per cent increase over August 1967.

Highway deaths totaled 35,230 for the first eight months of 1968, 6 per cent above 1967—when 33,390 persons died in the same period.

Nixon Assets Just Over Half Million

MINNEAPOLIS, Minn. (AP) — An aide to Richard M. Nixon said Tuesday that the GOP presidential hopeful has personal wealth of just over a half million dollars.

The information had been requested by the Chicago Tribune and was supplied by Ron Ziegler, a Nixon press aide, during a campaign appearance here.

Assets of the former vice president were listed at \$858,190, according to Nixon's business manager, and liabilities were given as \$342,360.

The bulk of Nixon's wealth is in undeveloped land in Florida. This accounts for \$401,382 of the candidate's \$515,830 total net worth.

Other assets include the family home in Whittier, Calif., at \$110,000 market value and a New York City cooperative apartment worth \$166,856.

Most of Nixon's liabilities are in bank loans and mortgages secured by real estate.

Ziegler said Nixon has bank accounts totaling \$39,385—according to business manager Vincent Andrews—and life insurance policies with a cash value of \$16,957. His civil service retirement benefits for service in the House of Representatives and Senate are worth \$18,605.

In addition, Nixon's interest in his New York law practice is valued at \$45,000. Personal property of the Nixon's is estimated at \$60,000.

Mulele Gets Death Word

KINSHASA, Congo. (AP) — Congolese rebel leader Pierre Mulele was sentenced to death by a special military court today after a 15-hour trial.

Mulele, who had returned to the Congo on a safe conduct provision under amnesty laws, immediately appealed for clemency to President Joseph Mobutu.

The news of the verdict was announced by Kinshasa radio.

Mulele, chief of the rebels in Kwilu province, had spent four years in exile. A leftist, he had led one of the bloodiest uprisings of the Congo's eight years of independence.

He returned to the Congo on Sept. 28 from the Congo Republic, the Congo's neighbor.

The court, composed of three superior officers of the Congolese army whose names were withheld, met behind closed doors at an undisclosed location. The trial began Monday afternoon.

More Immigrants
TEL AVIV (AP) — Ten thousand new immigrants arrived in Israel in the three months ended in mid-September, authorities reported, and 30,000 are expected for 1968—doubling any previous year.

1,800 Girls Are Needed For Dates

CHICAGO (AP) — Many a man would envy James McDonough.

He has been assigned to recruit 1,800 girls, age 18 to 22, as blind dates for Air Force cadets and Naval Academy midshipmen at a dance Saturday after the Navy-Air Force football game in Soldier Field.

But for McDonough, city commissioner of streets and sanitation, it's a big headache.

He was given less than two weeks to sign up the lasses.

The last time girls and academy men were matched after the game was in 1965, when 5,000 females applied to be dates for 2,000 males.

The lucky 1,800 girls—who must be high school graduates—will be allocated to the men according to lists provided by the academies.

And, true to military form, they'll be matched with the men by the number.

"They're given the name of their date—he's in Squadron 10, No. 7," said McDonough, who was appointed date-recruiter by Mayor Richard J. Daley.

"But they tell me that only lasts for a while," he added. "Then the guys start grabbing the best looking girl that comes along, and running."

Some 800 girls showed up Monday night for interviews with the screening committee in a normally masculine stronghold, the City Council chambers. Another session was scheduled for Tuesday.

Chicago, which will pay a \$250,000 bill for transporting and entertaining the sailors and airmen, has told the girls they'll have to provide their own rides home.

Set Mediation At Coshocton

COSHOCKTON, Ohio (AP)—The federal mediation service has entered negotiations to end the strike of United Steelworkers at the Clow Corp. plant here, hit by a walkout of nearly 600 union members Sept. 26.

Firing of a union steward and the president of the local are issues in the negotiations. The company claims the contract requires arbitration of such disputes, and the union local says it will turn down arbitration until the firings are changed to suspensions.

Edward McManus, the federal mediator from Columbus, will sit in on a negotiation session next Thursday afternoon.

Why Settle For Less?

Recently there have been many reckless claims about who has the lowest food prices! LET'S CLEAR THE AIR — Compare the prices on Kroger's shelves any day of the week — any week of the year — you'll find KROGER to be the overall LOW PRICE LEADER in town! We invite you to Compare Prices! Check our ads against any store in town, you'll find LIGHTNING HAS STRUCK KROGER! Some stores shout low prices — few have them — but only KROGER GIVES you both new LIGHTNING LOW PRICES and TOP VALUE STAMPS. Top Value Stamps are the something you get at Kroger — in the place of the nothing you get at some other stores!

Another First from Kroger
NOW! See both Sides of meat story before you buy!
Now our butchers are packaging every fresh-cut morsel of meat in clear plastic trays so you can see everything — the cuts, amount of fat, and bone — from every side. These trays are really freezer-ready without rewrapping or labeling. The trays won't stick and leave fuzz on the meat, either . . . or soak up precious juices that help steaks and chops cook up tender and tasty. If you're expecting to pay more . . . forget it. It's our pleasure to prove that we've got the finest meat in town . . . no matter how you look at it!

Police Chiefs Give Views On Use Of Chemical Mace

HONOLULU (AP) — "Since we started using chemical sprays we have practically eliminated the night stick. It's better than hitting a man over the head," says Police Chief Joseph C. Hall of Asheville, N.C.

His endorsement of chemical spray devices was typical of the reaction of police chiefs interviewed today at the 75th annual conference of the International Association of Chiefs of Police.

Police Chief Thomas Cahill of San Francisco, the association's first vice president, said city su-

pervisors there have prohibited police from using chemical agents because of possible eye injuries but "I personally think we should be allowed to use chemical agents under certain conditions." He said he felt pressure spray devices "are a valuable weapon in the control of violence with a minimum of hazard involved."

"Certainly chemical agents are less harmful than shotguns, rifles, clubs or even handcuffs," said Chief Silver Suarez of Springfield, Ill., but he cautioned police should not become

careless in their use of such items.

"In the hands of an untrained policeman, the use of a chemical agent could result in a charge of police brutality," Suarez added.

Chief Paul Shaver of Albuquerque, N.M., said there has been "a lot less use of the night stick since the introduction of chemical agents. The men on the beat are very strong in favor of the use of chemical agents."

Chief Elmer A. Briscoe of Reno, Nev., felt "it is a lot more humane than using the night stick or another weapon." J. Preston Strom, chief of the South Carolina Law Enforcement Division, said one policeman can immobilize four or five people without doing any permanent injury by using a chemical spray device so "it gives the policeman an added sense of security."

Daniel F. McMahon, sheriff of New York's Westchester County, said "there has been no conclusive proof that the use of chemical agents will cause permanent injury. This is a more desirable weapon than being forced to use firearms."

Wilson And Smith To Meet On Rhodesian Rebellion

GIBRALTAR (AP) — Prime Minister Harold Wilson of Britain meets the leader of breakaway Rhodesia's white minority government today in a new effort to persuade him to let the majority Africans rule eventually.

But Rhodesian Prime Minister Ian Smith comes into the meeting, aboard the British assault ship Fearless moored off Gibraltar, committed to preventing African rule "within my lifetime."

Wilson said the talks will be "aimed at discovering whether it would be possible to arrive at a settlement of the Rhodesia problem which would be acceptable to both sides."

The alternative, he said on

British television before leaving London Tuesday, could be "a lurch into apartheid, into perhaps even a blood bath in Rhodesia."

Smith's government, which represents 220,000 whites in a country of 4 million Africans, declared independence from Britain in November 1965. Britain refused to accept this, saying it would free the colony only when provision is made for majority African rule.

But the British government has been unwilling to enforce its position by sending troops to Rhodesia. Instead, Britain and other nations have applied pressure by halting trade with Rhodesia, pulling it down from prosperity to severe economic stress.

So far, with the aid of the apartheid regime in neighboring South Africa, Smith's government has survived this pressure and put down African terrorists on its borders.

If the talks fail, Smith is expected to give in to pressure from his party's right wing by proclaiming Rhodesia a republic with no ties to the British crown and moving closer to South Africa.

Injured Pilot Flies For Help

PORT ARTHUR, Ont. (AP) — A 28-year-old bush pilot, his right arm hacked off by a whirling propeller blade, climbed back into his plane and flew 15 miles for help.

Brian Steed, of South Porcupine, Ont., a pilot for the International Nickel Co. of Canada Ltd., had landed his seaplane on Green Water Lake about 60 miles northwest of here.

When he stepped out onto a pontoon, he slipped, his arm hit the moving propeller and was cut away above the elbow.

Steed struggled back into the plane and flew to Lake Shebano where another pilot flew him to Fort Arthur for treatment.

The accident happened last Saturday but Steed's story did not become known until Monday night.

Water Board Rips Release Of Erie Report

Claims Politics Behind Timing Of U.S. Move

COLUMBUS, Ohio (AP) — The Ohio Water Pollution Control Board criticized federal officials Tuesday for "apparent political timing" in the release of a report on Lake Erie pollution.

The report by the Federal Water Pollution Control Administration recently was unveiled at a Cleveland press conference.

Five members of the state board voted to send a letter of protest to the federal agency's commissioner, Joseph G. Moore Jr.

"It is difficult to understand the secrecy surrounding the report and its release and why it was not presented in open meeting," the letter stated. "The apparent political timing and lack of notification of the various states concerned has caused suspicion upon the intent of the report."

The report cost \$3 million and was five years in the making. The letter continued:

"It seems to us that the spirit of federal-state cooperation has been seriously damaged by the manner in which you presented the report in Cleveland recently. Likewise, a cloud has been cast on its technical quality."

"FWPCA's method of bringing the Lake Erie report to public view is both embarrassing and shocking to all of us," the letter concluded.

The state board noted that Gov. James A. Rhodes had been instrumental in requesting the pollution enforcement conference on Lake Erie, that he had sought federal-state programs to reduce pollution and that Ohio had supplied much of the material contained in the report.

In other action Tuesday, the board issued show cause orders to Maple Heights and Avon as to why they should not be denied waste discharge permits.

Maple Heights officials were ordered to appear next April 11 and Avon next Dec. 10.

Pipeline To Carry Affluent

CLEVELAND, Ohio (AP) — An experiment, sponsored by the federal government, to determine the feasibility of using an old coal pipeline to help rid the Cleveland metropolitan area of its solid wastes disposal problem will begin later this month.

For the first test conducted by the Bechtel Corp. of San Francisco, 15,000 gallons of solid wastes will be moved via the pipeline from Cleveland to a strip-mine region near Cadiz in Harrison County.

The Hanna Coal Co. division of Consolidation Coal Co. of Pittsburgh is lending the federal government the \$10-million pipeline free of charge for the experiment.

Before being moved through the 100-mile pipeline the sludge will be processed to extract odors.

When it reaches the strip mine area the sludge will be distributed over the barren land with the hope the sludge will turn the area fertile so grass will grow again and the land can be reclaimed.

Brandt Talks To Gromyko

UNITED NATIONS, N.Y. (AP) — U.N. diplomats expressed guarded hope today for an easing of East-West tensions in Europe following the surprise meeting between the foreign ministers of the Soviet Union and West Germany.

Delegates were heartened that the half-hour talk Tuesday between Russia's Andrei A. Gromyko and Willy Brandt of West Germany was initiated by the Soviets.

The meeting was described by Brandt as useful. Later the German mission in a communique said the talk dealt with "the well known questions of Germany and Europe which are of interest to both partners." The Russians had nothing to say.

The meeting, first contact between Moscow and Bonn in six years, was seen by some as a possible move by the Kremlin to establish a detente in a Europe still shaken by the Communist bloc thrust into Czechoslovakia.

Churches To Join In Prayer Meeting

Heidelberg Church of Christ, Jefferson Church of Christ in Christian Union and Good Shepherd United Methodist Church will meet together at the Good Shepherd Church, 310 E. Main St. 7:30 p.m. Saturday. The joint service will be for a Greater Pickaway County Crusade Prayer Meeting in conjunction with the Ford Philpot Crusade.

The Rev. Allen Gallimore of the Jefferson Church will be the speaker. All members of the churches are urged to attend.

Ohio Senate Race Develops Into Gilligan-Saxbe Fight

By DONALD L. BANDY
Associated Press Writer
COLUMBUS, Ohio (AP) — The U. S. Senate race in Ohio has developed into a hot battle between Democrat John J. Gilligan, a former congressman, and Republican William B. Saxbe, state attorney general.

Gilligan won the right to face Saxbe, winning the nomination in the May primary by topping an institution in Ohio politics, incumbent Sen. Frank J. Lausche.

Saxbe is using computer analysis of voting trends in the state to help in his campaign with hopes of becoming the first Republican senator from Ohio in 14 years.

Both candidates are similar in some respects. Both have taken dovish stands on Vietnam. Both have labor support in varying degrees and both have scored smashing successes at the polls.

Saxbe is 52 and Gilligan 47.

Illinois Doctors Favor Abortions

SPRINGFIELD, Ill. (AP) — The Illinois State Medical Society reports that a survey of its 3,000 members shows strong support for legalization of some forms of therapeutic abortion. The survey considered seven conditions under which abortions should be liberalized. Support ranged from 87 per cent in cases of forcible rape, to 72 per cent in cases where there is a risk of suicide by the pregnant woman. Illinois permits abortions only when the mother's life is in danger.

Woman Convicted Of Canton Murder

CANTON, Ohio (AP) — A Stark County Common Pleas Court jury convicted Mrs. Norma Jean Murray, 29, of Canton, of second-degree murder Monday night in the robbery-slaying of a Canton man.

Sentencing was deferred. Mrs. Murray, formerly of Coshocton, had been tried for first-degree murder in the death of Harold McCully, 51, in his Northwest Canton apartment last April 11.

Wilson, Smith Set Gibraltar Meet

LONDON (AP) — Prime Minister Harold Wilson will meet Prime Minister Ian Smith of Rhodesia aboard a British warship moored at Gibraltar Wednesday for talks on the deadlocked Rhodesian independence problem.

The British government announcement today said the talks will be "aimed at discovering whether it would be possible to arrive at a settlement of the Rhodesia problem which would be acceptable to both sides."

Pipeline To Carry Affluent

CLEVELAND, Ohio (AP) — An experiment, sponsored by the federal government, to determine the feasibility of using an old coal pipeline to help rid the Cleveland metropolitan area of its solid wastes disposal problem will begin later this month.

For the first test conducted by the Bechtel Corp. of San Francisco, 15,000 gallons of solid wastes will be moved via the pipeline from Cleveland to a strip-mine region near Cadiz in Harrison County.

The Hanna Coal Co. division of Consolidation Coal Co. of Pittsburgh is lending the federal government the \$10-million pipeline free of charge for the experiment.

Before being moved through the 100-mile pipeline the sludge will be processed to extract odors.

When it reaches the strip mine area the sludge will be distributed over the barren land with the hope the sludge will turn the area fertile so grass will grow again and the land can be reclaimed.

Ohio Senate Race Develops Into Gilligan-Saxbe Fight

By DONALD L. BANDY
Associated Press Writer
COLUMBUS, Ohio (AP)—The U. S. Senate race in Ohio has developed into a hot battle between Democrat John J. Gilligan, a former congressman, and Republican William B. Saxbe, state attorney general.

Gilligan won the right to face Saxbe, winning the nomination in the May primary by toppling an institution in Ohio politics, incumbent Sen. Frank J. Lausche.

Saxbe is using computer analysis of voting trends in the state to help in his campaign with hopes of becoming the first Republican senator from Ohio in 14 years.

Both candidates are similar in some respects. Both have taken dovish stands on Vietnam. Both have labor support in varying degrees and both have scored smashing successes at the polls.

Saxbe is 52 and Gilligan 47.

Illinois Doctors Favor Abortions

SPRINGFIELD, Ill. (AP) — The Illinois State Medical Society reports that a survey of its 3,000 members shows strong support for legalization of some forms of therapeutic abortion. The survey considered seven conditions under which abortions should be liberalized. Support ranged from 87 per cent in cases of forcible rape, to 72 per cent in cases where there is a risk of suicide by the pregnant woman. Illinois permits abortions only when the mother's life is in danger.

Both were in World War II. Saxbe as a bomber pilot and Gilligan as a Naval officer who won the Silver Star.

The race is close, and observers predict it will be a neck and neck struggle down to the wire on Nov. 5, although some polls currently show Saxbe with a slight edge.

Six months ago, Gilligan was given little chance of being in this election. But with the help and financial backing of labor, he won the Democratic nomination with his stunning upset over Lausche, 72-year-old former five-term governor who was seeking his third Senate term.

Gilligan campaigned then as a "real Democrat," lashing away at the independent-minded Lausche who was assailed by his own party of voting more often along Republican lines than Democratic.

Saxbe faced only nominal opposition in the Republican primary. His aides admit they believe he'll have a better chance against Gilligan than he would have had against Lausche, who always drew strong support

from Republicans.

Gun control has been a sharp division between the candidates. Saxbe, who has campaigned heavily on the "law and order" theme, is against registration of guns, while Gilligan favors registration.

Saxbe is in his third term as attorney general. He has served four terms in the Ohio House, including two terms as speaker. He lives at Mechanicsburg, a small town near Columbus, is a graduate of Ohio State University, and has three children.

Gilligan served in Congress in 1965-66 and was defeated for reelection by Rep. Robert Taft Jr. He has served five terms on City Council at Cincinnati, his hometown, where he formerly taught literature at Xavier University. He is a graduate of Notre Dame, and has two daughters and two sons.

Woman Convicted Of Canton Murder

CANTON, Ohio (AP)—A Stark County Common Pleas Court jury convicted Mrs. Norma Jean Murray, 29, of Canton, of second-degree murder Monday night in the robbery-slaying of a Canton man.

Sentencing was deferred.

Mrs. Murray, formerly of Coshocton, had been tried for first-degree murder in the death of Harold McCully, 51, in his Northwest Canton apartment last April 11.

Wilson, Smith Set Gibraltar Meet

LONDON (AP) — Prime Minister Harold Wilson will meet Prime Minister Ian Smith of Rhodesia aboard a British warship moored at Gibraltar Wednesday for talks on the deadlocked Rhodesian independence problem.

The British government announcement today said the talks will be "aimed at discovering whether it would be possible to arrive at a settlement of the Rhodesia problem which would be acceptable to both sides."

Mustangs Meet

West Jefferson

Logan Elm High School has scheduled its homecoming Friday, hosting Unioto in the final home game of the season.

Westfall and Teays Valley, the other two county schools, are both on the road Friday. Teays Valley travels to Dublin for a Metropolitan League contest while the Mustangs meet West Jefferson in a game that could achieve state recognition for Coach Dave Katterhenrich and his team.

West Jeff, although a class A school, plays in the Metropolitan League which includes Class AA members in Franklin Heights, Hamilton Twp. and Teays Valley.

They are rated 10th in the state with a 4-0-1 record. Westfall has an identical record.

COACH Dave Katterhenrich's Mustangs have a potent offense, averaging over 500 yards a game.

John Furniss paces a balanced backfield. The 170 pound senior has gained 1,008 yards for the Mustangs this year. Gene Carfrey, who operates at the other halfback slot has gained 350 yards while the fullbacks, Ron Parsons and Chris Schein, team up to give the Westfall squad about 75 to 90 yards per game.

Westfall is comparatively healthy for the game, and Katterhenrich reports they have had good practices so far this week. Ron Parsons' ankle, injured in the game with Adena, is still a little sore.

"We think West Jeff is a pretty good team and the team that makes the fewest mistakes should win," Katterhenrich said today.

He has been drilling his gridders in the fundamentals of the sport this week to eliminate any mistakes they have a tendency to make.

"This will be our toughest game so far," according to Katterhenrich. The only blemish on the Westfall record is a 12-12 deadlock with Unioto. West Jefferson battled Franklin Heights to a 26-26 tie.

LAST Friday, Obie Folden paced West Jeff to a 38-6 victory over Teays Valley. Folden is only one of two regulars returning from last year's squad.

Head coach at West Jefferson is Gene Keel, who has produced a 76-17-3 record at West Jefferson, including unbeaten campaigns in 1962 and '64.

Logan Elm hopes to bounce back from the 73-6 beating it suffered at the hands of Westfall last week.

Unioto was highly regarded the first of the season, and fought Westfall to a tie. Two weeks ago, Paint Valley upset the Shermans, giving them their first loss in 32 games and knocking them out of the top ten class A teams in the state.

After losing to Paint Valley, the Shermans were upset by Adena, the newest member of the Scioto Valley Conference. Jim Long's squad has a 2-2-1 record for the season.

Dave Juenger is the key to the Unioto offense and the man that Logan Elm will have to

stop. Five Braves were injured by the Mustangs last week, but none seriously.

TEAYS Valley's opponent, Dublin, has a new head coach in Bob Farmer, who was at Blanchester last season. Dublin is one of the smallest teams that Teays Valley has faced this year. The heaviest player for the Shamrocks weighs about 190 pounds.

Under Farmer, Dublin runs from a spread formation, splitting both ends and using a flanker at times.

Jim Gentry, a returning letterman, is the key man in the backfield. He has good speed according to scouting reports.

Dublin has a 3-2 record for the season, and was beaten by Hamilton last week.

Teays Valley is the healthiest it has been for several weeks, reports Coach Dick Kidwell.

"Ken Parsons will be ready to go at halfback," Kidwell noted. Parsons addition to the backfield is expected to bolster the Viking attack.

KIDWELL noted that against West Jefferson, his team played a fine ball game for three quarters. "We got a good game out of our defensive unit," he commented.

Underclassmen have been improving steadily during the season and are now starting to nudge some of the seniors out of positions they held earlier in the season.

Kidwell, who expects over 20 of his gridders to return next year, is already looking ahead. "We should be real tough next year," he says.

Teays Valley has a tough schedule remaining. After Dublin, the Vikings travel to Franklin Heights and then host Canal Winchester and Westfall.

Boston Celtics Beat Cincinnati

MUNCIE, Ind. (AP) — The Boston Celtics, defending National Basketball Association champions, rallied in the second half to defeat Cincinnati 98-96 in an exhibition game Thursday night.

Snapping a seven-game losing streak, Boston overcame a 55-38 halftime deficit. Bailey Howell paced the Celtics with 26 points. Oscar Robertson topped the Royals with 23.

Cleve Bryant Mid-American Back Of Week

COLUMBUS, Ohio (AP) — Cleve Bryant, who directed Ohio University to a key 40-31 triumph over Toledo last Saturday, is the Mid-American Conference Back of the Week.

Joe Green of Bowling Green and Bob Babich of Miami shared Lineman of the Week honors.

Bryant, a 5-foot-11 junior from Canton, completed 14 of 24 passes for 182 yards and three touchdowns against the Rockets. He also rushed 19 times for 64 yards and went his third straight game without yielding a pass interception.

Green, a 5-10, 190 pound middle guard, led a fierce Bowling Green defense that stymied Western Michigan's ground game in a 17-10 Falcon victory. Green made 13 solo tackles and assisted on 12 others.

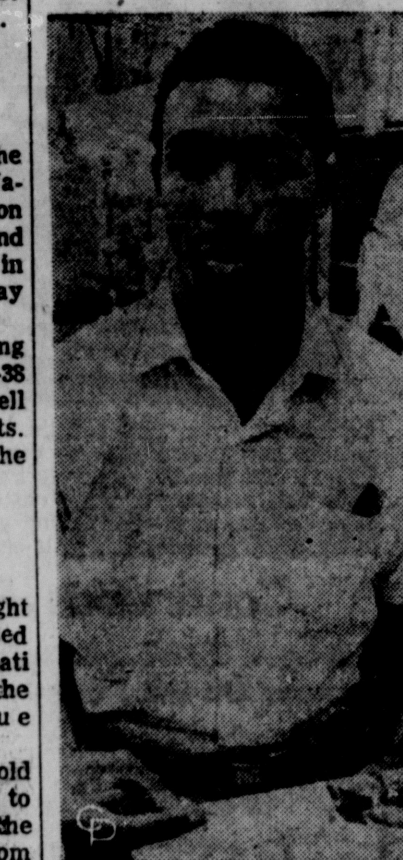

He also recovered a Western fumble and returned an intercepted pass 19 yards.

Babich, Miami's brilliant 6-2, 225-pound linebacker, was credited with 13 primary tackles and 10 assists as he led the Redskins to a 24-0 triumph over Kent State.

The senior from Campbell recovered a Kent fumble and was instrumental in throwing Kent runners for losses totaling 42 yards.

Also nominated for Back of the Week honors were Fred Mathews of Bowling Green; Jim Cody, Kent; Kent Thompson Miami; Steve Jones, Toledo and San Antonazzo, Western.

In the running for lineman laurels were Gary Vituccio, Kent; Todd Snyder, Ohio; John Brisker, Toledo and Larry Stum Western.

"THERE ARE BOUND to be demonstrations" at the Olympic Games, says John Carlos of New York, shown at Olympic Village in Mexico City. Carlos is the 200-meter world record holder. He originally backed a proposed black boycott of Olympics.

Bowling Green's Falcons Surprise Team Of MAC

By HAL PARIS

Associated Press Sports Writer
COLUMBUS, Ohio (AP)—If you're looking for a surprise team in the Mid-American Conference—try Bowling Green.

The Falcons, under the guidance of new Coach Don Nehlen, are unbeaten in three games and have a 1-0 conference record.

But the road ahead is laden with obstacles, the first of which comes up Saturday night when Bowling Green tangles with arch-rival Toledo in the Glass Bowl.

"We may be done now. We've won about as many as they picked up to win all season," Nehlen said.

But the 32-year-old coach is quick to admit the importance of the Toledo game.

"I believe if we can beat Toledo, we'll be a real contender. There's no question about it."

"I have a feeling that Toledo, Miami and Ohio University are in a class by themselves this year. It scares me that there may be three super teams and four average teams in this league."

Toledo, 3-1 overall and 1-1 in the conference after a 40-31 loss to Ohio last Saturday, is on the hot seat. The Rockets must win to keep their title hopes alive. Nehlen figures both clubs will

each game. Injuries have hurt but our kids execute fairly well."

Nehlen is convinced that the tough B G defense has a major chore stopping Toledo's quarterback Steve Jones and tailback Roland Moss.

"We'll have to force them into making mistakes and we'll have to contain Jones and Moss. Toledo erupted for a 33-0 triumph last season after Bowling Green had whipped the Rockets 12 straight years.

The shaky Toledo defense can expect an aerial assault from BG's P. J. Nyitray.

Elsewhere, Miami (2-0) is expected to move into a first place deadlock with Ohio by beating the high for Saturday's game "because it's such a great, natural rivalry."

Grid Forcasters Choose OSU Over Purdue

ALL-AMERICA CANDIDATE — Rick Rawlins, son of Mr. and Mrs. Elbert Rawlins, Route 1, has been nominated for possible election to the first annual Kodak College Division All-America team. He is one of four Otterbein College players nominated. The others are Dan Dent, Columbus; Gary Moore, Dayton; Steve Lack, Gallion. Rawlins, 6-3, a 235-pound tackle, is a graduate of Logan Elm High School.

'Mercury' Morris Leads O.J. On College Grid Chart

NEW YORK (AP) — West Texas State's Eugene "Mercury" Morris has taken a commanding lead over Southern California's O.J. Simpson in the battle for the college football rushing title, thanks to a record-breaking weekend.

Morris, who shattered the single-game major college rushing record with 340 yards in 35 carries in a 35-20 victory over Montana State, has totaled 884 yards in four games, according to figures released today by the National Collegiate Sports Service.

Simpson, last year's rushing champ, has totaled 588 yards in one less game.

Morris, a 5-foot-10 190-pound halfback, also is the nation's top scorer with 66 points, while Simpson, Bob Houmard of Ohio University, and Roland Moss of Toledo share second with 54 each.

Morris' 884 yards rushing is exactly 200 yards more than any major collegian ever gained in the season's first four games. His average of 221 yards per game is more than the team average of 86 of the nation's 114 major teams.

Meanwhile, Southern Methodist sophomore Chuck Hixson, who is firing away at a record clip, maintained his passing leadership and took over first in total offense.

Hixson's 84 pass completions is 15 more than any previous major collegian ever compiled at this stage of the season, and his 1,031 yards total offense is 54 more than previous first three-game best. His 1,023 passing yards is the second best three-game start.

Hixson's favorite target, Jerry Levias, caught nine passes last weekend to take over the pass receiving lead with 29. Other leaders included Spike Jones of Georgia in punting (43.9), Jake Scott of Georgia in punt returns (226 yards on 15) and Jeff Allen of Iowa State in kick-off returns (314 on 10).

Oakland Raiders Lead AFL Statistics

NEW YORK (AP) — The powerful Oakland Raiders are off and running toward their second straight American Football championship, and statistics show the reason why.

The Raiders, 4-0, lead in total offense with 1,709 yards, an average of 427.3 yards a game, and rank second in total defense with 1,010 yards, just two more yards than San Diego has allowed, league statistics released today revealed.

Oakland also has turned its high-powered running and passing into the most points, 160, and has allowed the fewest points, 52. San Diego has given up 60 points.

Survivor Could Be Big 10 Champ

By DICK COUCH

Associated Press Sports Writer
ST. LOUIS (AP) — A football coach doesn't believe in turning the other cheek... particularly if his name happens to be Woody Hayes.

The Ohio State pilot has been laying for Purdue ever since his Buckeyes took a 41-6 thrashing from the Boilermakers last fall.

Saturday at Columbus, Hayes gets his rematch in a game that could swing the Big Ten championship to the survivor.

Purdue goes in with an unblemished record and the top spot in the national rankings. But the brawny Bucks are unbeaten, too, and Hayes has enough talent at his disposal to avenge Ohio's darkest day in 1967.

We're betting he'll do just that... despite Leroy Keyes.

Last week's picks came out on top in 47 of 56 games, giving this corner a season mark of 140-37-7... a .761 pace.

This is the way some of the coming weekend's other key pairings look from here:

Penn State over UCLA: The Bruins' offensive shortcomings were evident in last week's loss to Syracuse. Penn State's rugged defense should compound the problem.

Mississippi over Georgia: The Rebs are flexing their muscles after knocking off Alabama for the first time since 1910.

Kansas over Nebraska: One vote for Jayhawk quarterback Bob Douglass in this Big Eight archrivalry.

Oklahoma over Texas: The Sooners have a score to settle too... Texas handed them their only regular season set back in 1967.

Michigan State over Michigan: Duffy Daugherty has something going again at East Lansing.

Texas A&M over Texas Tech: The Aggies are going to make plenty of late trouble in the Southwest Conference.

Miami, Fla., over Louisiana State: Miami's Ted Hendricks is big enough to put the Tigers in his tank.

Among the others: EAST—Syracuse over Pittsburgh; Dartmouth over Princeton; Cornell over Penn; Harvard over Columbia; Holy Cross over Colgate; Buffalo over Delaware; Yale over Brown; Boston College over Villanova; California over Army.

SOUTH—Alabama over Vanderbilt; Auburn over Clemson; Duke over Virginia; Florida over Tulane; Tennessee over Georgia Tech; Oregon State over Kentucky; Tulsa over Louisville; North Carolina over Memphis State; Southern Mississippi over Mississippi State; North Carolina State over South Carolina.

MIDWEST—Air Force over Navy at Chicago; Colorado over Missouri; Minnesota over Illinois; Indiana over Iowa; Kansas State over Iowa State; Notre Dame over Northwestern; Utah State over Wisconsin.

SOUTHWEST—Arkansas over Baylor; Houston over Oklahoma State; Texas Christian over Southern Methodist.

FAR WEST—Southern California over Stanford; Wyoming over Brigham Young; Arizona State over Washington State; Washington over Oregon.

Hayes Sees 'Total War' Clash Against Boilermakers

CHICAGO (AP) — Ohio State Coach Woody Hayes, quoting freely from General Alfred Von Schlieffen of World War I and General George Patton of World War II, indicated Saturday's battle between Ohio State and Purdue will be total war.

Hayes' startling quotations from the generals came via telephone Tuesday in answer to questions posed by the Chicago Football Writers.

Questions about his use of John Tatum as roving defensive back, Hayes explained Ohio State's defensive strategy and said, "Remember what General Von Schlieffen said: 'keep your flank strong.'"

Hayes then was asked how his team could overcome Purdue's size and experience and answered "There's no substitute for experience and you can't do anything about it when you don't have it. But as General Patton said, 'Never take counsel of your fears.'"

Von Schlieffen was a German strategist during World War I and Patton led American troops in Europe during World War II.

Purdue Coach Jack Mollenkopf said he had never heard of Von Schlieffen but that if Ohio State took away the outside sweeps from the Boilermakers, "I hope we have enough balance to go inside."

Mollenkopf said he hoped his

Mike Haffner Tops AFL In Offense

By MIKE RECHT

Associated Press Sports Writer

Second string rookie flanker Mike Haffner of Denver made his pass catching debut in the pros something to dream about.

The 25-year-old first year player from UCLA caught three straight passes—his first as a pro—for 15, 4 and 5 yards, the last for the Broncos' touchdown with about two minutes remaining for a 10-7 victory over Cincinnati Sunday.

Two other substitute receivers, Mark Smolinski and Curley Johnson of the New York Jets, also filled in admirably.

Smolinski, normally a reserve running back, shared tight end duties and caught three passes, including two for 14 and 15 yards in a touchdown drive that gave the Jets a 23-20 victory over San Diego.

Johnson caught three for 47 yards that led to an earlier field goal. He also punted six times for a 47.8 average.

The regular receivers weren't just standing around. Gary Garrison of the Chargers latched onto six passes for 163 yards and two touchdowns and Fred Biletnikoff of Oakland grabbed six for 107 yards to set up two scores.

Biletnikoff also drew two pass interference penalties and scooped up teammate Charlie Smith's fumble and ran seven yards for a touchdown in the Raiders' 41-10 breeze over Boston.

Bob Holmes of Kansas City carried 15 times for 91 yards in an 18-7 triumph over Buffalo.

Quarterback Bob Griese led Miami to its first victory, 24-7 over Houston, by completing six of 12 passes for 92 yards and one touchdown.

Mustangs Meet West Jefferson

Logan Elm High School has scheduled its homecoming Friday, hosting Unioto in the final home game of the season.

Westfall and Teays Valley, the other two county schools, are both on the road Friday. Teays Valley travels to Dublin for a Metropolitan League contest while the Mustangs meet West Jefferson in a game that could achieve state recognition for Coach Dave Katterhenrich and his team.

Also nominated for Back of the Week honors were Fred Mathews of Bowling Green; Jim Cody, Kent; Kent Thompson Miami; Steve Jones, Toledo and San Antonio, Western.

In the running for lineman laurels were Gary Vituccio, Kent; Todd Snyder, Ohio; John Brisker, Toledo and Larry Stum Western.

Morris, who shattered the single-game major college rushing record with 340 yards in 35 carries in a 35-20 victory over Montana State, has totaled 884 yards in four games, according to figures released today by the National Collegiate Sports Service.

Simpson, last year's rushing champ, has totaled 588 yards in one less game.

Morris, a 5-foot-10 190-pound halfback, also is the nation's top scorer with 66 points, while Simpson, Bob Houmard of Ohio University, and Roland Moss of Toledo share second with 54 each.

Morris' 884 yards rushing is exactly 200 yards more than any major collegian ever gained in the season's first four games. His average of 221 yards per game is more than the team average of 86 of the nation's 114 major teams.

Meanwhile, Southern Methodist sophomore Chuck Hixson, who is firing away at a record clip, maintained his passing leadership and took over first in total offense.

Hixson's 84 pass completions is 15 more than any previous major collegian ever compiled at this stage of the season, and his 1,031 yards total offense is 54 more than previous first three-game best. His 1,023 passing yards is the second best three-game start.

Hixson's favorite target, Jerry Leivas, caught nine passes last weekend to take over the pass receiving lead with 29. Other leaders included Spike Jones of Georgia in punting (43.9), Jake Scott of Georgia in punt returns (226 yards on 15) and Jeff Allen of Iowa State in kickoff returns (314 on 10).

Oakland Raiders Lead AFL Statistics

NEW YORK (AP) — The powerful Oakland Raiders are off and running toward their second straight American Football championship, and statistics show the reason why.

The Raiders, 4-0, lead in total offense with 1,709 yards, an average of 427.3 yards a game, and rank second in total defense with 1,010 yards, just two more yards than San Diego has allowed, league statistics released today revealed.

Oakland also has turned its high-powered running and passing into the most points, 160, and has allowed the fewest points, 52. San Diego has given up 60 points.

Marshall (0-2) at Huntington, W. Va.

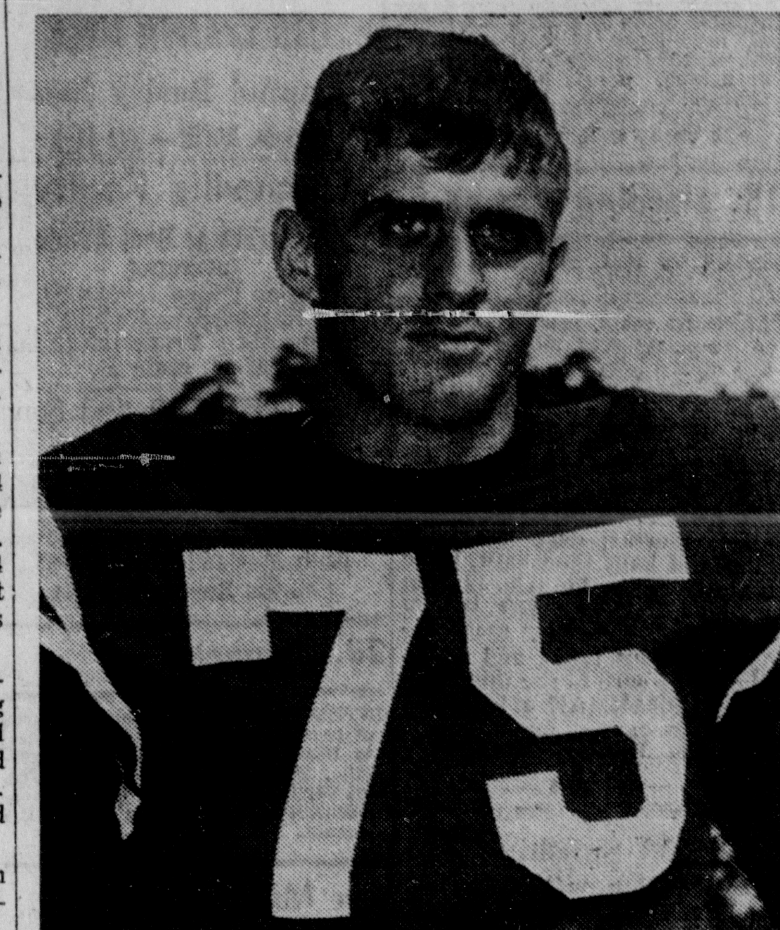

Ohio (3-0) is outside the league with a trip to William & Mary where the Bobcats will be out to avenge last year's 25-22 setback to the Indians.

Kent, 0-2 in the league and 0-4 on the season, entertains Western Michigan, 0-2 and 1-3. Last place beckons the loser.

The way it looks from here: Toledo 27, Bowling Green 10; Miami 27, Marshall 0; Kent 20, Western 7; Ohio 27, William & Mary 20.

Grid Forecasters Choose OSU Over Purdue

ALL-AMERICA CANDIDATE — Rick Rawlins, son of Mr. and Mrs. Elbert Rawlins, Route 1, has been nominated for possible election to the first annual Kodak College Division All-America team. He is one of four Otterbein College players nominated. The others are Dan Dent, Columbus; Gary Moore, Dayton; Steve Lack, Gallion. Rawlins, 6-3, a 235-pound tackle, is a graduate of Logan Elm High School.

'Mercury' Morris Leads O.J. On College Grid Chart

NEW YORK (AP) — West Texas State's Eugene "Mercury" Morris has taken a commanding lead over Southern California's O.J. Simpson in the battle for the college football rushing title, thanks to a record-breaking weekend.

Survivor Could Be Big 10 Champ

By DICK COUCH

Associated Press Sports Writer ST. LOUIS (AP) — A football coach doesn't believe in turning the other cheek... particularly if his name happens to be Woody Hayes.

The Ohio State pilot has been laying for Purdue ever since his Buckeyes took a 41-6 thrashing from the Boilermakers last fall.

Saturday at Columbus, Hayes gets his rematch in a game that could swing the Big Ten championship to the survivor.

Purdue goes in with an unblemished record and the top spot in the national rankings. But the brawny Bucks are unbeaten, too, and Hayes has enough talent at his disposal to avenge Ohio's darkest day in 1967.

We're betting he'll do just that... despite Leroy Keyes.

Last week's picks came out on top in 47 of 56 games, giving this corner a season mark of 140-37-7... a .761 pace.

This is the way some of the coming weekend's other key pairings look from here:

Penn State over UCLA: The Bruins' offensive shortcomings were evident in last week's loss to Syracuse. Penn State's rugged defense should compound the problem.

Mississippi over Georgia: The Rebs are flexing their muscles after knocking off Alabama for the first time since 1910.

Kansas over Nebraska: One vote for Jayhawk quarterback Bob Douglas in this Big Eight archrivalry.

Oklahoma over Texas: The Sooners have a score to settle too... Texas handed them their only regular season set back in 1967.

Michigan State over Michigan: Duffy Daugherty has something going again at East Lansing.

Texas A&M over Texas Tech: The Aggies are going to make plenty of late trouble in the Southwest Conference.

Miami, Fla., over Louisiana State: Miami's Ted Hendricks is big enough to put the Tigers in his tank.

Among the others: EAST—Syracuse over Pittsburgh; Dartmouth over Princeton; Cornell over Penn; Harvard over Columbia; Holy Cross over Colgate; Buffalo over Delaware; Yale over Brown; Boston College over Villanova; California over Army.

SOUTH—Alabama over Vanderbilt; Auburn over Clemson; Duke over Virginia; Florida over Tulane; Tennessee over Georgia Tech; Oregon State over Kentucky; Tulsa over Louisville; North Carolina over Memphis State; Southern Mississippi over Mississippi State; North Carolina State over South Carolina.

MIDWEST—Air Force over Navy at Chicago; Colorado over Missouri; Minnesota over Illinois; Indiana over Iowa; Kansas State over Iowa State; Notre Dame over Northwestern; Utah State over Wisconsin.

SOUTHWEST—Arkansas over Baylor; Houston over Oklahoma State; Texas Christian over Southern Methodist.

FAR WEST—Southern California over Stanford; Wyoming over Brigham Young; Arizona State over Washington State; Washington over Oregon.

Hayes Sees 'Total War' Clash Against Boilermakers

CHICAGO (AP) — Ohio State Coach Woody Hayes, quoting freely from General Alfred Von Schlieffen of World War I and General George Patton of World War II, indicated Saturday's battle between Ohio State and Purdue will be total war.

Hayes' startling quotations from the generals came via telephone Tuesday in answer to questions posed by the Chicago Football Writers.

Questions about his use of John Tatum as roving defensive back, Hayes explained Ohio State's defensive strategy and said, "Remember what General Von Schlieffen said: 'keep your flank strong.'"

Hayes then was asked how his team could overcome Purdue's size and experience and answered "There's no substitute for experience and you can't do anything about it when you don't have it. But as General Patton said, 'Never take counsel of your fears.'"

Von Schlieffen was a German strategist during World War I and Patton led American troops in Europe during World War II.

Purdue Coach Jack Mollenkopf said he had never heard of Von Schlieffen but that if Ohio State took away the outside sweeps from the Boilermakers, "I hope we have enough balance to go inside."

Mollenkopf said he hoped his

TALLAHASSEE, Fla. (AP) — The greatest ambition of Dale McCullers, Florida State line-backer who was named Associated Press Lineman of the Week, says his greatest ambition is to play pro football.

"But I don't think there's a great demand for 207-pound linebackers in the pros," he said Tuesday after he learned of his selection.

MEXICO CITY (AP) — Italy trounced Brazil 8-3 in a practice Olympic water polo game at the National Swimming Pool Tuesday.

HILTON HEAD ISLAND, S.C. (AP) — Curtis Person, the defending champion from Memphis, Tenn., routed J. E. Green, Johnson City, Tenn., 4 and 3 in the first round Tuesday of the Southern Seniors Golf Tourney.

CHICAGO (AP) — Gulf and Western Industries, Inc., of New York and Houston acquired Chicago Thoroughbred Enterprises, Inc., operators of Arlington and Washington Park race tracks for a reported \$40 million.

CHICAGO (AP) — John Schael, freshman wrestling coach at Miami of Ohio the last two years, has been named for the same post at the University of Chicago, it was announced.

players would be as high for Ohio State as they were for Notre Dame and then explained last year's 41-6 mauling of Ohio State.

"The breaks went against Ohio State," said Mollenkopf, "and everything fell in our hands."

The possibility of Tatum guarding Purdue great Leroy Keyes was discussed and Hayes said, "No man can cover Keyes one on one."

Woody might have added that Von Schlieffen reportedly said on his death bed, "Don't weaken the right wing or you are lost." The Germans didn't listen to him and lost.

Mike Haffner Tops AFL In Offense

By MIKE RECHT

Associated Press Sports Writer Second string rookie flanker Mike Haffner of Denver made his pass catching debut in the pros something to dream about.

The 25-year-old first year player from UCLA caught three straight passes—his first as a pro—for 15, 4 and 5 yards, the last for the Broncos' touchdown with about two minutes remaining for a 10-7 victory over Cincinnati Sunday.

Two other substitute receivers, Mark Smolinski and Curley Johnson of the New York Jets, also filled in admirably.

Smolinski, normally a reserve running back, shared tight end duties and caught three passes, including two for 14 and 18 yards in a touchdown drive that gave the Jets a 23-20 victory over San Diego.

Johnson caught three for 47 yards that led to an earlier field goal. He also punted six times for a 47.8 average.

The regular receivers weren't just standing around. Gary Garrison of the Chargers latched onto six passes for 163 yards and two touchdowns and Fred Biletnikoff of Oakland grabbed six for 107 yards to set up two scores.

Biletnikoff also drew two pass interference penalties and scooped up teammate Charlie Smith's fumble and ran seven yards for a touchdown in the Raiders' 41-10 breeze over Boston.

Bob Holmes of Kansas City carried 15 times for 91 yards in an 18-7 triumph over Buffalo.

Quarterback Bob Griese led Miami to its first victory, 24-7 over Houston, by completing six of 12 passes for 92 yards and one touchdown.

Bowling Green's Falcons Surprise Team Of MAC

By HAL PARIS
Associated Press Sports Writer COLUMBUS, Ohio (AP)—If you're looking for a surprise team in the Mid-American Conference—try Bowling Green.

The Falcons, under the guidance of new Coach Don Nehlen, are unbeaten in three games and have a 1-0 conference record.

But the road ahead is laden with obstacles, the first of which comes up Saturday night when Bowling Green tangles with arch-rival Toledo in the Glass Bowl.

"We may be done now: We've won about as many as they picked us to win all season," Nehlen said.

But the 32-year-old coach is quick to admit the importance of the Toledo game.

"I believe if we can beat Toledo, we'll be a real contender. There's no question about it."

"I have a feeling that Toledo, Miami and Ohio University are in a class by themselves this year. It scares me that there may be three super teams and four average teams in this league."

Toledo, 3-1 overall and 1-1 in the conference after a 40-31 loss to Ohio last Saturday, is on the hot seat. The Rockets must win to keep their title hopes alive.

Nehlen figures both clubs will

each game. Injuries have hurt, but our kids execute fairly well."

Nehlen is convinced that the tough B G defense has a major chore stopping Toledo's quarterback Steve Jones and tailback Roland Moss.

"We'll have to force them into making mistakes and we'll have to contain Jones and Moss."

Toledo erupted for a 33-0 triumph last season after Bowling Green had whipped the Rockets 12 straight years.

The shaky Toledo defense can expect an aerial assault from BG's P. J. Nyitrai.

Elsewhere, Miami (2-0) is expected to move into a first place deadlock with Ohio by beating BG high for Saturday's game "because it's such a great, natural rivalry."

Clippers Defeat Cleveland Barons

BALTIMORE (AP) — Coming from behind for three goals in the final period, the Baltimore Clippers treated a home opening night crowd of 6,121 to a 3-1 victory over the Cleveland Barons in an American Hockey League game Tuesday night.

After spotting the visitors a 1-0 advantage on a second period goal by rookie Gary Monahan, the Clippers exploded for three tallies in the last stanza by veteran center Willie Marshall, left winger Bob Brinkworth and defenseman Nick Polano.

Greg Cook Named MVC Back Of Week

KANSAS CITY (AP) — Quarterback Greg Cook of Cincinnati has been named Missouri Valley Conference back of the week. He set four school records against Houston and threw a scare into the nationally ranked Cougars, although the Bearcats eventually lost 71-33.

Cook had his team ahead 21-14 at one point. He completed 22 of 49 passes for 352 yards and one touchdown, including an 85-yard play.

See New Viet Red Offensive Around U.S. Election Time

WASHINGTON (AP) — Military officers are weighing intelligence that indicates the enemy in Vietnam will attempt "something big" in the way of a new offensive before the end of the year.

Captured enemy officers have told interrogators in Vietnam they think their leaders in Hanoi would like to make a big splash in U.S. headlines about the time of the Nov. 5 election.

It is not clear to American military men exactly what Hanoi thinks might be accomplished if its troops were able to make a major psychological impact with new assaults around election day.

The U.S. judgment at this point is that enemy troops have little capability to stage another Tet-type offensive which surprised the allies last February.

For one thing, the North Vietnamese and Viet Cong main-force units suffered heavily during the Tet holiday attacks and are still trying to reconstitute fighting outfits by robbing guerrilla forces.

Military officials say the enemy also apparently has been pulling experienced officers from his training organization in North Vietnam to fill out combat units in the South.

In the long run this erosion of the training base, if it is occurring, would seriously weaken the enemy war effort.

Last year troops sent down from North Vietnam got, according to prisoner interrogation, about three months training.

Now captured enemy troops tell of getting only one month's instruction before being put on the road south.

Irish Police Put On Alert To Head Off More Trouble

BELFAST (AP) — Northern Ireland's government acted today to cool tempers and ward off street clashes in Belfast between Roman Catholic and Protestant demonstrators.

Hundreds of police were on alert in the capital as 1,500 Queen's University students gathered for a mass march today. The students, many of them Catholics, were parading to protest the way police broke up a civil rights demonstration in Londonderry last weekend.

Authorities gave permission for the Belfast march—but banned a counterdemonstration planned by the Rev. Ian Paisley, a Protestant extremist.

Paisley had warned that members of his "Ulster Volunteer Force" would barricade part of the parade route to keep the marchers away from Protestant neighborhoods.

"Now I have been served with

a police order forbidding our demonstration," the clergyman said. "But I will be there just the same and I have asked thousands of other Protestants to be there too."

A homemade gasoline bomb was thrown at a side door of Broadway Presbyterian Church Tuesday night and police dispersed crowds of youths gathering on street corners.

The church, located in a largely Catholic district, was not badly damaged. Police blamed "hooligans" for the attack.

Gas Explosion Ruins House, Residents Safe

A gas explosion injured one person and extensively damaged a home near Circleville Tuesday. Eight people in a room over the explosion were uninjured.

Workmen of the Litter Heating Company were installing a new furnace control at the Jess Curry home on Route 22 near Route 133 Tuesday. After installing the control and turning gas back on about 8:30 p.m. workmen smelled gas, according to Curry.

One of the workmen, in an attempt to find the gas leak, lit his cigarette lighter and ran it back and forth along the main gas pipe.

Curry, who was upstairs with his wife and four children, said he heard a loud explosion and saw flames under the floor through holes made by the explosions. He told Sheriff's Deputy Warren Straley that he realized what had happened and ran outside and turned off the gas.

Leaking gas had accumulated under the floors and exploded when ignited by the lighter, according to Straley.

Damage to the house included almost total loss of the floor and walls in the room Curry and his family were in, an extensive damage to a room nearby where the forces of the explosion forced the wall out six inches.

One of the workmen suffered minor burns to his face, according to the sheriff's report.

Rescind Order To Salute Or Fight

SAIGON (AP) — The commander of the U.S. 4th Infantry Division withdrew today his order that soldiers who failed to salute be sent into combat.

Cancellation of the order was announced in Washington Tuesday after officials admitted that the Army had been embarrassed by its disclosure.

Maj. Gen. Charles P. Stone, division commander, was quoted by a spokesman in Saigon as saying that the order was rescinded because of "widespread misinterpretation."

The salute-or-fight order appeared in the division's daily bulletin on Sept. 7. But a spokesman said it had been in existence since February and that the bulletin announcement was only a reminder of the order.

It said that men in rear base areas who did not salute would be sent to forward areas.

Four soldiers were sent to combat zones under the order before Sept. 7. But a spokesman said, and another four had been sent since.

There was no indication in Washington as to who acted to get the order canceled. But a statement from the Pentagon indicated the problem was thrown into the lap of the U.S. commander in Vietnam, Gen. Creighton W. Abrams. The statement said, "The Army considers this a matter of concern for the local command."

Stone said Monday that the order came "only after a flagrant violation" of the custom of saluting superior officers.

"Most often," he said, a soldier "is counseled on the spot and he may or may not be referred to his unit commander for additional training or other appropriate action."

The 4th Division has its headquarters at Camp Enari, just outside Pleiku in the central highlands. It numbers about 15,000 men.

Birth Control For Deer Set

SANDUSKY, Ohio (AP)—Female deer at the National Aeronautics and Space Administration's Plum Brook Station near here will soon be getting birth control pills.

The Plum Brook center has a large herd of deer—so large that providing enough feed has become a problem.

So they will soon implement, along with scientists from Ohio State University, a birth control program in hopes of reducing the size of the herd.

Dr. Tony J. Peterle of Ohio State says if the plan works, it may be used in national parks. He also said it would have widespread implications in deer herd management.

Marines Pay Homage At Khe Sanh

By JOHN T. WHEELER
Associated Press Writer
KHE SANH, Vietnam (AP) — The U.S. Marines paid homage today to 3,000 comrades killed or wounded in the 77-day siege of Khe Sanh.

The bearded, hollow-eyed men who held the base early this year might have smiled at this if they could have foreseen the

memorial service that finally was held.

There were generals, a band, and two honor guards drawn up in neat formations on an aircraft parking ramp that during the siege was constantly pounded by North Vietnamese rockets, mortar and artillery shells. Before the siege was broken in April, a military formation like this one would have been madness.

At the height of the siege, up to 1,500 rounds fell on the small camp in a single day. Men lived and sometimes died in sand-bagged bunkers. The camp air was heavy with the smell of unwashed bodies.

Capt. John E. Goller, a Navy

chaplain from Bonita Springs, Fla., looked across the shell-pocked landscape today as he recited: "Yea, though I walked through the valley of the shadow of death..."

A Marine at Khe Sanh during the siege had the same words inscribed on his helmet, but finished the prayer this way, "... for I am the meanest man in the Khe Sanh valley."

The memorial service was made possible because the Marines once again are in the Khe Sanh valley on a wide ranging sweep searching for any enemy strong points. The Khe Sanh combat base was abandoned

and destroyed in July when the Marines closed down permanent operations in the valley. The decision to close the base was made to give the Marines enough men for mobile warfare instead of being tied down in static defense.

Irish Police Put On Alert To Head Off More Trouble

BELFAST (AP) — Northern Ireland's government acted today to cool tempers and ward off street clashes in Belfast between Roman Catholic and Protestant demonstrators.

Hundreds of police were on alert in the capital as 1,500 Queen's University students gathered for a mass march today. The students, many of them Catholics, were parading to protest the way police broke up a civil rights demonstration in Londonderry last weekend.

Authorities gave permission for the Belfast march—but banned a counterdemonstration planned by the Rev. Ian Paisley, a Protestant extremist.

Paisley had warned that members of his "Ulster Volunteer Force" would barricade part of the parade route to keep the marchers away from Protestant neighborhoods.

"Now I have been served with

a police order forbidding our demonstration," the clergyman said. "But I will be there just the same and I have asked thousands of other Protestants to be there too."

A homemade gasoline bomb was thrown at a side door of Broadway Presbyterian Church Tuesday night and police dispersed crowds of youths gathering on street corners.

The church, located in a largely Catholic district, was not badly damaged. Police blamed "hooligans" for the attack.

Gas Explosion Ruins House, Residents Safe

A gas explosion injured one person and extensively damaged a home near Circleville Tuesday. Eight people in a room over the explosion were uninjured.

Workers of the Litter Heating Company were installing a new furnace control at the Jess Curry home on Route 22 near Route 133 Tuesday. After installing the control and turning gas back on about 8:30 p.m. workmen smelled gas, according to Curry.

One of the workmen, in an attempt to find the gas leak, lit his cigarette lighter and ran it back and forth along the main gas pipe.

Curry, who was upstairs with his wife and four children, said he heard a loud explosion and saw flames under the floor through holes made by the explosions. He told Sheriff's Deputy Warren Straley that he realized what had happened and ran outside and turned off the gas.

Leaking gas had accumulated under the floors and exploded when ignited by the lighter, according to Straley.

Damage to the house included almost total loss of the floor and walls in the room Curry and his family were in, an extensive damage to a room nearby where the forces of the explosion forced the wall out six inches.

One of the workmen suffered minor burns to his face, according to the sheriff's report.

Trainmen Back Myrl Shoemaker

The Brotherhood of Railroad Trainmen, has endorsed Myrl Shoemaker as a candidate for the Ohio House of Representatives, 108th General Assembly.

The Brotherhood is a rail labor organization founded in 1883 and has over 14,000 active members in the state of Ohio.

"Shoemaker's past record, integrity and sincere endeavor to represent his fellow man merits this endorsement," William C. Gandert, chairman and state legislative representative of the organization says.

Clifford Sees Czech Pullback

WASHINGTON (AP) — Secretary of Defense Clark M. Clifford said today there have been "some indications recently of the withdrawal of some Soviet Union troops from Czechoslovakia."

But Clifford said the U.S. government does not have details on the reported Soviet troop withdrawal or the number involved.

Rescind Order To Salute Or Fight

SAIGON (AP) — The commander of the U.S. 4th Infantry Division withdrew today his order that soldiers who failed to salute be sent into combat.

Cancellation of the order was announced in Washington Tuesday after officials admitted that the Army had been embarrassed by its disclosure.

Maj. Gen. Charles P. Stone, division commander, was quoted by a spokesman in Saigon as saying that the order was rescinded because of "widespread misinterpretation."

The salute-or-fight order appeared in the division's daily bulletin on Sept. 7. But a spokesman said it had been in existence since February and that the bulletin announcement was only a reminder of the order.

It said that men in rear base areas who did not salute would be sent to forward areas.

Four soldiers were sent to combat zones under the order before Sept. 7, a spokesman said, and another four had been sent since.

There was no indication in Washington as to who acted to get the order canceled. But a statement from the Pentagon indicated the problem was thrown into the lap of the U.S. commander in Vietnam, Gen. Creighton W. Abrams. The statement said, "The Army considers this a matter of concern for the local command."

Stone said Monday that the order came "only after a flagrant violation" of the custom of saluting superior officers.

"Most often," he said, a soldier "is counseled on the spot and he may or may not be referred to his unit commander for additional training or other appropriate action."

The 4th Division has its headquarters at Camp Enari, just outside Pleiku in the central highlands. It numbers about 15,000 men.

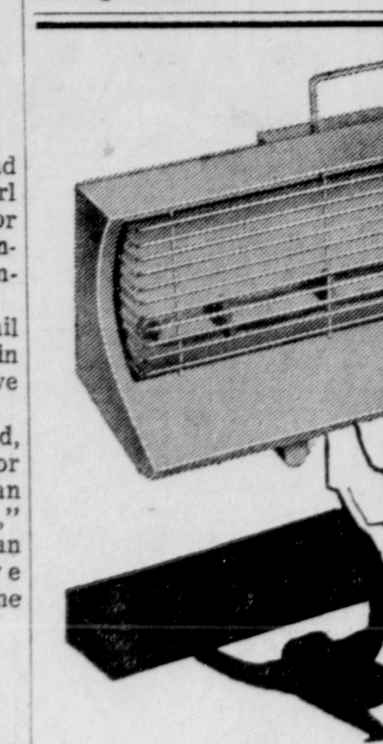

Birth Control For Deer Set

SANDUSKY, Ohio (AP)—Female deer at the National Aeronautics and Space Administration's Plum Brook Station near here will soon be getting birth control pills.

The Plum Brook center has a large herd of deer—so large that providing enough feed has become a problem.

So they will soon implement, along with scientists from Ohio State University, a birth control program in hopes of reducing the size of the herd.

Dr. Tony J. Peterle of Ohio State says if the plan works, it may be used in national parks. He also said it would have widespread implications in deer herd management.

ery means of transportation...

"I've seen them come by horse and buggy, car, airplane, helicopter, on horseback and bicycle. But the day I'll give up is when somebody rows a boat down the Scioto River."

The chief's statement prompted one wag to comment that the old canal should be reopened to provide transportation to the Pumpkin Show.

CITY SAFETY Director Robert Adkins is still talking about his vacation last week at the Lexington Trot, Lexington, Ky. ... There were 50 two-minute or faster miles raced during the week... That's a lot of speed.

MUNICIPAL Court Judge Sterling Lamb and the clerks are looking forward to Pumpkin Show... Business in the court during that week is usually slack, so the Judge has informed local law enforcement agencies the office will be closed in the afternoon, Wednesday, Thursday and Friday.

COUNTY commissioners have declared that Columbus Day is not a holiday for county offices... The courthouse will be open for business as usual Saturday morning.

RODNEY Cook, the eight-year-old youth injured Sunday when struck by a car on the Lancaster Pike, is improving, according to his mother, Mrs. Richard L. Cook, Watt St.

Mrs. Cook said today that doctors at Children's Hospital have informed her that he will be released from the hospital the latter part of the week.

Marines Pay Homage At Khe Sanh

By JOHN T. WHEELER
Associated Press Writer
KHE SANH, Vietnam (AP) — The U.S. Marines paid homage today to 3,000 comrades killed or wounded in the 77-day siege of Khe Sanh.

The bearded, hollow-eyed men who held the base early this year might have smiled at this if they could have foreseen the

memorial service that finally was held.

There were generals, a band, and two honor guards drawn up in neat formations on an aircraft parking ramp that during the siege was constantly pounded by North Vietnamese rockets, mortar and artillery shells. Before the siege was broken in April, a military formation like this one would have been madness.

At the height of the siege, up to 1,500 rounds fell on the small camp in a single day. Men lived and sometimes died in sand-bagged bunkers. The camp air was heavy with the smell of unwashed bodies.

Capt. John E. Goller, a Navy

chaplain from Bonita Springs, Fla., looked across the shell-pocked landscape today as he recited: "Yea, though I walked through the valley of the shadow of death..."

A Marine at Khe Sanh during the siege had the same words inscribed on his helmet, but finished the prayer this way, "... for I am the meanest man in the Khe Sanh valley."

The memorial service was made possible because the Marines once again are in the Khe Sanh valley on a wide ranging sweep searching for any enemy strong points. The Khe Sanh combat base was abandoned

and destroyed in July when the Marines closed down permanent operations in the valley. The decision to close the base was made to give the Marines enough men for mobile warfare instead of being tied down in static defense.
